NO-RAIDING AGREEMENT DRAFTED BY TLC-CCL

REGINA (CP)—The Trades and Labor Congress of Canada today received a recommendation from its executive for a no-raiding pact with the rival Canadian Congress of Labor.

The tentative pact, as drafted by TLC-CCL officers, calls for the two congresses themselves to refrain from raiding each other's memberships and requests affiliated unions to sign individual treaties with other unions operating in the same fields.

The move, first of its kind in Canadian labor history, would parallel similar action taken this year by the big American Federation of Labor and Congress of Industrial Organizations in the United States.

The TLC has 580,000 members, the CCL 375,000.

Russian Ships Near Formosa Chinese News Agency Reports Movements

TAIPEH, Formosa (UP)—A Chinese Nationalist news agency reported today Russia's Far Eastern fleet has shifted warships southward to offset a United States naval build-up along the China coast.

Chinese News Agency, which claims close connections with military intelligence, said one Soviet cruiser of about 10,000 tons and two destroyers were seen in Chusan harbor off the Chekiang coast recently by Nationalist agents. Several Soviet warships were also reported at Hainan Island in the Gulf of Tonkin off the coast of northern Viet Nam.

Previous reports have told of impressive numbers of Soviet submarines and cruisers in the Hainan Island area at the mouth of the gulf, scene of recent air clashes between Chinese Communist and American planes.

Nationalist sources have reported that Russians have shifted recently two aircraft carriers to their Far Eastern fleet. One was said to be in the 35,000-ton class and the other a lighter escort carrier.

U.S. Planes To Back Fleet

TOKYO (UP)—American air forces based in the western Pacific will join the Seventh Fleet in blocking Red China's threatened invasion of Formosa, an authoritative American military source disclosed today.

"If the Communists really intend to conduct operations against Formosa, they are in for a terrible beating," the high official warned.

He said President Eisenhower had responded to the Peiping regime's "trial balloon" on Formosa by declaring a Red invasion would have to deal with the Seventh Fleet.

The source said that while the

Nehru Offers West Own 'Peace Formula'

NEW DELHI, India (AP)—Prime Minister Nehru offered his own "collective peace" formula today for easing world tension. As an example, he cited his recent non-aggression agreement with Chinese Communist Premier Chou En-lai.

In a 25-minute foreign policy review to the Indian Parliament, Nehru condemned such military pacts as the U.S.-proposed Southeast Asia Defense Alliance. He said SEATO "likely will reverse the trend of conciliation released by the Indo-China settlement."

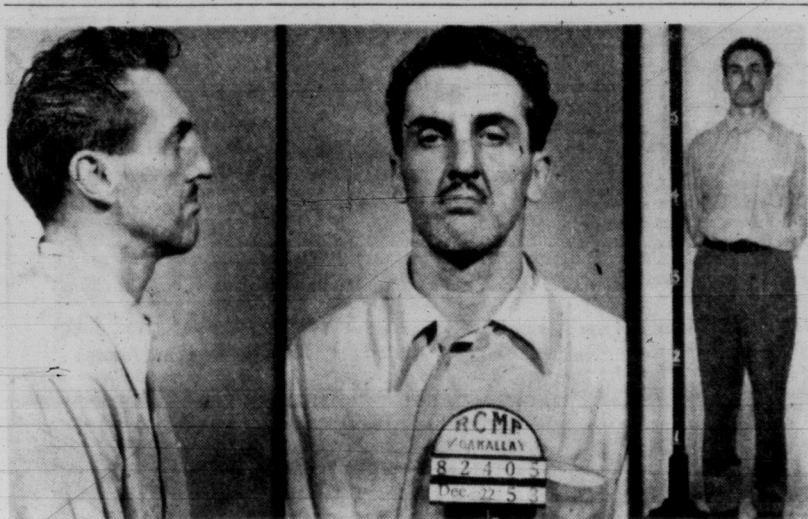

Nehru confirmed India's refusal to participate in the SEATO talks in the Philippines next month and said his government was "apprehensive that the proposed Southeast Asia collective organization will in the present do more harm than any good it might hope to do in the future."

Nehru and Chou, after their

SEATO Talks to Start

SYDNEY, Australia (AP)—Prime Minister Robert G. Menzies said tonight preliminary official talks on the proposed southeast Asia treaty will begin in Manila next Wednesday.

U.S., Britain Ready To Give West Germany Sovereignty

Have You Seen Clifford Dawley?

Warden Admits Slip-Up In Dawley Jail Break

AUSTIN PRODUCES ECONOMICAL GAS-TURBINE FOR MOTORING

BIRMINGHAM (Reuters)—A British automobile company announced today that it had overcome one of the main obstacles to gas-turbine motoring by successfully fitting a car with a heat exchanger turbine.

One of the main objections to the commercial use of gas-turbines has been the high fuel consumption and heat wastage. The fitting of a heat exchanger in the exhaust system utilizes the "waste" gases and lowers fuel consumption.

The Austin Motor Company, part of the giant British Motor Corporation, announced that results so far with its 125-horsepower engine were "encouraging." But it gave no further details.

Vargas Mourners, Police Clash

One Reported Killed, 38 Injured
In Rio De Janeiro Demonstrations

By W. W. COPELAND
RIO DE JANEIRO (UP)—Military police and crowds of mourners for the late President Getulio Vargas clashed at Santos Dumont airport and in downtown Rio de Janeiro today, killing one person and injuring 38 others.

The first clash occurred at the airport as the body of the president, who shot himself Tuesday, was flown to the provincial town of Sao Paulo for burial.

The police fired over the heads of the crowd, driving it back from the runway as the private two-engine plane took off.

There were no casualties at the airport, but several persons fainted.

The crowd, estimated at tens of thousands lining a mile-and-a-half route from the presidential palace to the airport, then marched downtown.

Charged in their deaths is Walter Storschuk, the husband and father. He was being held at Emerson but police said he may be taken to Winnipeg.

No details were available here The bodies were found before dawn.

U.K. Harvest Poor
LONDON (AP)—Britain is facing the prospect of one of the worst harvests in years.

So much rain has poured on this island during the summer that the umbrella factories are far behind the demand.

200,000 See Parade
Opening PNE Exhibition

VANCOUVER (BUP)—The Pacific National Exhibition opened with a spectacular two-hour parade under brilliant sunshine today as officials predicted last year's attendance record of 815,000 would be broken.

The exhibition, largest in western Canada, runs until Sept. 6 with an array of industrial and agricultural exhibits, horse racing, midway, circus and other attractions.

A crowd estimated at 200,000 saw the colorful opening parade, which featured floats and bands from many British Columbia and U.S. Pacific Northwest points.

The crowds along the route to the airport and at the airfield were quiet until just before the plane bearing Vargas' body took off. Then they surged through police lines for a last look at the casket as it was loaded on the DC-3.

The parade, described as the

Mendes-France Refuses EDC Support

Government's Life
Not at Stake

PARIS (AP)—The European army treaty's chances looked slimmer than ever today following Premier Pierre Mendes-France's decision to submit the pact to the National Assembly Saturday without government support.

He told reporters Tuesday night he would not stake the life of his government by calling for a vote of confidence on the treaty's ratification. The crucial decision not to recommend it as government policy was made at a cabinet meeting which lasted into the late hours.

Today Mendes-France spoke to a joint session of the foreign affairs, national defense and overseas territories committees of the National Assembly. All three have reported unfavorably on EDC.

He said his government would take on responsibility for a vote on EDC as it now stands.

WIRE BRIEFS

Freighter Fired On

HONG KONG (Reuters)—A British freighter was fired on Tuesday night by a Nationalist Chinese shore battery on one of the islands in the Formosan strait, its agents said here today.

Snow at Cranbrook

CRANBROOK (BUP)—Snow fell in parts of the Canadian Rockies Tuesday night, leaving a fine white blanket of snow almost down to the foothills.

'Hundreds' Arrested

BERLIN (UP)—The chief of East Germany's secret police reports his men have arrested "hundreds" of western agents since West German intelligence chief Otto John fled to the east, the East German radio said today.

Suicide Try Foiled

VANCOUVER (BUP)—A woman who was picked up by police recently after threatening to throw herself off the Granville Street Bridge was foiled in a second suicide attempt Tuesday night.

Police said the woman, who was not identified, was taken to the General Hospital suffering from an overdose of sleeping pills.

Montreal Fire

MONTREAL (BUP)—A fire which broke out in a big downtown grocery store was quickly brought under control today after morning shoppers filed out quietly into the street without a single casualty.

The blaze caused heavy damage to the Steinberg's Ltd. store on St. Catherine St. West.

Calgary Drenched

EDMONTON (CP)—Rain-sodden Alberta was promised some relief by weather forecasters today after 2.99 inches drenched the Calgary district alone in the last 24 hours.

Probe \$125,000 Fire

DOMINION, N.S. (BUP)—The Nova Scotia fire marshal's office today probed a \$125,000 fire which destroyed the St. Eugene Roman Catholic Church in this Cape Breton centre Tuesday.

Four dynamite caps were found near the ruined three-year-old church, levelled along with four adjoining school rooms.

Will Act Fast If EDC Fails

WASHINGTON (UP)—The United States and Britain will move quickly to grant sovereignty to Western Germany if France rejects the European Army plan, informed sources said today.

The West German government, in return, is expected to agree not to start rearming until after further negotiations with the west.

The sources said such a plan would be designed to persuade France to grant at least limited sovereignty to Germany if she refuses to go along with the six-nation European Defense Community Treaty.

U.S. officials hope France will see the political necessity for following the American and British lead in granting sovereignty in their zone of Germany.

Failure to give West Germany a free hand in conducting her own affairs could lead to downfall of Chancellor Konrad Adenauer's pro-western government, officials believe. West

Dulles Appeals for Ratification

Under such a procedure, the political life of Mendes-France would not be staked on approval of the treaty. This was regarded as a plan that would ensure defeat of EDC.

Secretary of State John Foster Dulles said Tuesday he "deeply regrets" that France has not gone along with the other EDC signatories in standing by basic treaty principles. He appealed for French ratification in these words:

"I still have the hope that when France confronts the ultimate decision, she will follow her great tradition of idealism, based on a sense of realism, and choose to cement the EDC partnership which is of French conception, rather than stand apart."

Canadian Scores Upset In U.S. National Golf

Montreal's Don Doe Defeats Patton
In National; Ward Beaten on 18th

GROSSE POINTE, Mich. (UP)—Frank Stranahan and Donald Doe, one as well known as the other is obscure, knocked co-favorites Harvie Ward Jr. and Billy Joe Patton out of the running today in the third round of the U.S. amateur golf tournament. The fourth round was being played this afternoon.

Two U.S. Pros Share Golf Lead

TORONTO (BUP)—Former amateur king Gene Kitterer and youthful Dick Mayer fired scorching seven-under-par 64s today to take the lead from early finishers in the first round of the 72-hole \$26,500 Labatt Open at the Scarborough Golf and Country Club.

Mayer, of St. Petersburg, Fla., playing his fourth season as a pro, eagled the 510-yard sixth hole and birdied three others as he ripped over the front nine in a five-under-par 31. He had three birdies coming home but bogeyed the 220-yard 14th for a two under 33.

Littler, of Palm Springs, Calif., dropping 20-foot putts almost at will, had three birdies going out for a 33 and then blistered the back nine for four birdies for a 31.

Required To Lose War General Tells Senate

ORLANDO, Fla. (AP)—A retired air force general told a Senate sub-committee here today "we were required to lose" the Korean war.

He was Lieut. Gen. George E. Stratemeyer, now living in nearby Winter Park after a heart attack in 1951.

The Senate internal security sub-committee came here because of his physical condition and heard him in closed sessions Tuesday. Today's session was open.

Stratemeyer told the committee that "state department and political interference kept us from winning the war."

Gen. Mark Clark recently told the committee he, too, felt that military decisions had been overridden by other considerations. Stratemeyer said that as head of the Far East Air Force under Gen. Douglas MacArthur, "I wasn't permitted to do a job and certainly MacArthur was handicapped. Never before in Amer-

Vacations Cut Employment In Canada

Workers Number 4.8 Millions;
Drop of 280,000 Under High Point

OTTAWA (CP)—An above-normal number of vacation closures during July cut Canada's employment rolls to 4,891,000 at July 24, the labor department reported today.

It was a drop of 280,000 from the year's high point of 5,191,000 at June 19 and 191,000 below the figure of 5,082,000 on July 18 last year.

The employment figure, reported by the bureau of statistics in its monthly labor force survey, included 4,584,000 persons who worked 35 hours or more during the week ended July 24 and 307,000 who worked 35 hours or more during the week ended July 24 and 307,000 who worked shorter hours.

Many more workers were affected by vacation closures this year than a year ago. An estimated 450,000 were out on vacations at the end of July, compared with less than 300,000 in 1953.

JOBLESS DECLINE

At the same time, the bureau's survey showed a drop in unemployment of 13,000 during the month. It reported 172,000 persons were without jobs and seeking work during the survey week, compared with 185,000 in the week ended June 19. The total compared with 90,000 listed a year ago as without jobs and seeking work.

The labor department said em-

**JUST

RECORD**

BORED: In Emeryville, Calif., Patrolman Leo Neuberger, a veteran of 18 years on the local police force, was fined yesterday because the chief found him 20 blocks off his beat.

Neuberger told Chief Frank Farina he "got bored" driving around the same streets all the time.

PURPLE COW: In Gaithersburg, Md., The Montgomery County fair has a purple cow.

Officials used dye to create the brilliant hue, which is supposed to inspire folks to give the animal a name. Winner in the contest will get a two-week expense-paid trip to the Bahamas.

TROUBLE: In Cincinnati, waitress Frances Glass had trouble with an iced tea urn yesterday and stuck her finger in the machine in an effort to unplug it.

It took a life saving squad, ambulance, two policemen and five firemen armed with hacksaws to free her finger.

OLD HOUSES
Of the 13,500,000 houses in Great Britain, nearly 10,000,000 are more than 65 years old.

JOHN LORT
... confirmed in position

Librarian Confirmed In Position

John Lort, acting chief librarian at Victoria Public Library since last May 1, was confirmed in that position Tuesday by the Library Board. James E. Neely, board chairman, said many applications had been received for the job.

At the same time the board decided to continue the summer policy of closing the library all day Wednesday through to the end of September.

City Council's request that the library board give consideration to making a grant to the Victoria and District Film Council was rejected. The board was informed it had no authority to make grants. The film council originally asked the city for \$100.

The board was informed its 1954 grant from the provincial government's public library commission would amount to \$10,168 this year. Last year it received \$8,865.

25 Polio Cases In Nova Scotia

HALIFAX (CP)—The health department said today 25 polio cases have been reported in Nova Scotia this year. There have been four deaths.

More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FASTEETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. No gummy, goopy, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

Duchess, Daughter Mark Duke's Death

QUEBEC (CP)—The Duchess of Kent and Princess Alexandra today take time off from social engagements to quietly mark the 12th anniversary of the death of the Duke of Kent.

The Royal visitors, scheduled to board a late-afternoon train for Toronto, planned to spend a leisurely morning at the citadel, have a picnic, weather permitting, and relax with members of Governor-General Massey's summer residence.

The Duke of Kent died in an air crash Aug. 25, 1942, when his daughter, the princess, now 17, was five.

The duchess and the princess have called on government, civic, religious and educational personages during their four-day visit that began Sunday when they arrived from England by air.

Train time is 6 p.m. In Toronto, the duchess will open the Canadian National Exhibition.

The stylish visitors have attracted hundreds of spectators in this ancient capital of French-speaking Canada—their first stop on the three-week tour of eastern Canada.

Find KLM Airliner Wreckage

AMSTERDAM, Holland (UP)—The wreckage of a New York to Amsterdam DC-6B Royal Dutch Airliner was found in 65 feet of water off Holland's North Sea coast early today.

A spokesman for the KLM airlines said salvage vessels located the plane's shattered fuselage, found some "mortal remains" and picked up additional bits of debris, including parts of the interior cabin.

There was no announcement of the number of additional bodies located. Previously, only one—that of one of the twin five-year-old sons of Mr. and Mrs. Joseph Yarrow of Woodbury, Conn.—was found.

A total of 21 persons died when the airliner crashed about 17 miles off IJmuiden, Holland, on Monday.

Hat German Arming Mao Tells Attlee

Biggest Salmon Season in 40 Years Forecast

Run Now Heading For Hell's Gate

VANCOUVER (CP)—The gold rush is on in the British Columbia salmon industry but whether fishermen strike pay dirt is still anybody's guess.

It is the first interview Mao has granted to western politicians since the Communists took over in China five years ago.

British newspapers reported today there was nothing new in Mao's demands but considered them sensational because he

put them bluntly to Attlee, who he believes, will return to power.

The jackpot awaiting fishermen is indicated by a single day's catch by the seiner Merit operating out of Tacoma. The boat picked up 3,780 sockeye salmon worth an average \$1.60.

Crew members collected \$680 shares.

The incoming mass of fish, now moving from the west coast of Vancouver Island will reach the mouth of the Fraser at the end of this week.

As the fish surge around in the gulf, smaller seiners will work the mouth of the river. An anticipated 3,000 gillnetters will move in for the kill as the salmon force upstream about September 14.

During the early fur trade that part of British Columbia north of the Columbia river was known as New Caledonia.

put them bluntly to Attlee, who he believes, will return to power.

Attlee Invited to Seattle

SEATTLE (UP)—The World Affairs Council of Seattle Tuesday invited former British prime minister Clement Attlee to come to Seattle and "See America too."

The invitation was sent to Mr. Attlee, now visiting in Red China, via British officials at Hong Kong.

Council president Payne Karr said the invitation was sent to give the British Labor leader a chance to "clear the air" around his visit with the Communist Chinese at Peiping.

QUEBEC MOTHER SHOTS CHILDREN, KILLS SELF

CASCADES POINT, Que. (CP)—A 36-year-old woman shot and killed her two children and then herself Tuesday in this town, 25 miles west of Montreal, police reported Tuesday night.

Police said Mrs. Beatrice Meloche shot her son Alain, 2, and her three-month-old daughter Murielle with a 12-gauge shotgun, and then turned the gun on herself.

Mrs. Meloche had not been well since the birth of the baby and had been under a doctor's care, police quoted neighbors.

The bodies were discovered in the Meloche home by a brother-in-law. Mr. Meloche walked in moments later.

U.S. Move May Harm Canadian Grain Sales

Eisenhower Seeks to Determine if Canada's Oats, Barley Supplies Hamper Price Support

By VICTOR MACKIE, Times Ottawa Correspondent

OTTAWA—President Eisenhower has referred the importation of oats and barley to the United States Tariff Commission for investigation and report, to determine if Canadian supplies are rendering the American price support program ineffective, it was learned today.

Action of the president is viewed with grave concern in agriculture and trading circles of the Canadian government.

They see in the move a new threat to this country's oats and barley sales in the U.S.

The president is understood to have directed the new investigation because of the heavy crops of oats and barley in the U.S. this year.

Much of the acreage which was diverted from wheat by the American government has been seeded this year to oats and barley.

In the spring of 1953 President Eisenhower directed the Tariff Commission to report on the effect of Canadian sales of oats on the American agriculture price support policy.

At that time the Canadian government expressed alarm about the adverse effects on relations between the two countries of a decision to limit imports of Canadian oats.

This government warned that it would not want to be placed in a position where it would have to impose counter trade restrictions.

As a result of negotiations between the two countries Canada voluntarily agreed to limit her exports of oats to the U.S. to approximately 23,000,000 bushels during period Dec. 10, 1953, to Oct. 1, 1954.

With that period now soon expiring the president has ordered a new investigation but he has also broadened it to include barley.

Canada supplies most of the U.S. imports of oats. In 1952-53 Canadian exports of oats to the U.S. totaled 59,500,000 bushels and barley 24,100,000 bushels.

Effect of the motion was to request the nominating committee to consider placing a layman on the list of candidates for president.

There was no early indication whether the committee will stick to its six-man slate and risk a fight among delegates or revise the ticket to include a layman.

One alternative would be to submit seven names, including that of one layman, and let the delegates choose the six winners.

Then the delegates were informed that requests had been received to place a layman on the slate of senior officers who form the presidium.

Dr. Martin Niemoller, German protestant leader, offered a motion to postpone the election until tonight and it was approved 158 to 146.

Canadian Flier, Partner Die In Plane Crash

Montreal Student Killed in U.S.

DEVILS LAKE, N.D. (AP)—A young Canadian pilot and a North Dakota youth were killed Tuesday night when their small plane crashed and burned in a field 10 miles west of Devils Lake.

Killed were: Donald Sidney Frost, 22, of Montreal, and Arlo Lorenson, 19, of Devils Lake.

The plane crashed on the Mer-ton Bryn farm and burst into flames.

Frost was thrown clear of the wreckage. He died in an ambulance en route to a Devils Lake hospital. Lorenson died in the crash.

Lorenson and Frost had taken off from the Devils Lake airport to go to Fillmore, N.D., 40 miles west of here.

Devils Lake is 120 miles northwest of Fargo, N.D.

Frost, a senior at McGill University, had been employed in this area as a summer pilot.

30,000 Free Bees If You Remove Them

CHILLIWACK, B.C. (CP)—George Stevens, a British Columbia Electric Company manager, offered 30,000 bees free to any bee-keeper who would remove them from one of his electrical control boxes.

At the time of the offer, the bees hadn't hindered the current.

Eastern Storms Leave 3 Dead

Ontario, New York State Hit By Lightning; Much Damage

NIAGARA FALLS, Ont. (CP)—Electrical storms swept across Ontario and New York State Tuesday, leaving in their wake at least three dead, several injured and thousands of dollars damage.

Peter Zelkiewicz, 42, was found dead in a puddle of water at the Chrysler Corporation plant in Windsor and was believed to have been struck by lightning.

In northwestern New York, two persons were killed. Power lines were knocked down, several fires were set and streets and cellars were flooded.

A Batavia mother and her son were killed by lightning while bathing in Ontario Beach park in Rochester, N.Y. The victims were Mrs. Mary Meier, 48, and her seven-year-old son, Michael.

The Niagara peninsula was the hardest-hit area. Wind, rain and hail caused thousands of dollars damage to crops, orchards and farm buildings.

Fifteen feet of rainfall was swept away on the Canadian side of Niagara Falls and there were threats of further rock slides. The roadway was barricaded to keep people from the danger area as a large crack appeared near the Horseshoe Falls.

Niagara Falls firemen were swamped with about 4,000 phone calls from citizens with varying complaints.

At least 2,000 private telephones were knocked out. Eight fires were reported but only one was serious. Lightning struck the farm of Keith McLeod in Stamford township causing \$10,000 damage.

The Watershed

IN THE LAST FEW DAYS Europe and the free world crossed a watershed. Where the current of events will flow on the other side no man can foresee.

The collapse of the European Defense Community washes out the foundation of Western policy in the heart of Europe.

All the planning of the British and American Governments had been based on the assumption that West Germany would join an international army, would integrate its life with the community of Western Europe and accept the present partition of the Reich indefinitely.

The international army has perished, apparently, in the morass of French politics. Two urgent problems thus arise.

First, how is West Germany to be rearm? For it must be rearm if Western Europe is to be defended.

Second, how are the West German people to be persuaded to accept the partition of their Fatherland, to throw in their lot with their non-Communist neighbors and to resist the reunification offered (at a price) by Russia?

The military question is not too difficult to answer. If Britain and the United States agree to the rearmament of West Germany, France cannot prevent it. If France destroys the chance of an international army and compels the establishment of a national German army, that is France's responsibility, and a very serious one. In any case Germany will decide to arm or not to arm as it sees fit, in the long run.

But the political problem of West Germany is infinitely more difficult and dangerous.

The Adenauer Government has lived so far on its promise to secure West Germany's sovereignty in friendship with the West and as part of an international defense system. That policy is undermined by the collapse of the E.D.C. and by another factor, too long neglected or underestimated—the German people's natural desire to see their whole country reunified.

Russia's great propaganda weapon among these people is the promise of reunification. The split halves of

Germany, says Russia, can easily be brought together again if the united German state agrees to neutrality and permanent disarmament. Thus, in Russian propaganda, only the United States and Britain stand in the way of reunification.

This may appear a specious argument to us in North America but it is a powerful argument in the puzzled mind of West Germany. Lately it has come to the surface in the case of Dr. Otto John and a prominent West German politician who have deserted to Communism.

These two men may not be of much importance in themselves. In terms of propaganda their importance can hardly be exaggerated. If foreigners are unmoved by Dr. John's charge that the United States is plotting world war, centred in Germany millions of Germans are willing to listen. Their minds are receptive to these lies because their hopes have been disappointed. They counted on the E.D.C. and the E.D.C. has failed. They were promised sovereignty when the E.D.C. was approved and it has not been granted. They are thus left dangling in uncertainty and the Adenauer Government is left, for the moment, without a policy.

Clearly, therefore, if the Adenauer Government is to be maintained against all these pressures the West must come to its support without further delay. West Germany must be granted sovereignty before the West German people abandon hope in the West and turn to the East.

Already Britain and the United States have made preparations to this end. For some weeks experts in London and Washington have been working on a formula by which the two issues of the E.D.C. and West German sovereignty would be separated, and German sovereignty established, in case the E.D.C. failed. If it has finally failed, this plan must go forward immediately. For if the Adenauer Government can give its people neither the E.D.C. nor sovereignty its position may become impossible; it may be replaced by a government ready to do business with the Communists.

Portent of Weakness

FOREIGN PROTESTS AGAINST President Eisenhower's decision in the Swiss watch issue were to be expected. It is surprising, and much more hopeful, to find that many thoughtful Americans are just as angry against this blow to the trade of Switzerland, one of the United States' reliable customers.

Barron's Weekly, for example, is considered a highly conservative journal and normally a friend of the Republican Party. Yet it says: "The trouble with the President's directive . . . is that it opens the door to every hungry claimant for special favors. In so doing it saps rather than nourishes the real sinews of American strength. The highroad to prosperity and to military security in this country lies not in isolation, but rather in drawing on the resources and skills of others in return for products which the U.S. can advantageously make through greater efficiency and high capital investment. Possessed of nearly fifty per cent of

the world's industrial resources, but less than seven per cent of its population, the United States simply cannot afford to go it alone, either militarily or economically speaking."

From this point of view, as Barron's says, the President's decision to restrict the importation of Swiss watches, while apparently a small thing in itself is "a portent of weakness. It blinks the consumer; it should disturb the military; and to the rest of the world it is a sign that once again the U.S. has failed to be true to its own pretensions or even, for that matter, to its own self-interest."

If the watch case has made Americans think about these things it will serve a useful purpose. Next year the President promises to launch his long-delayed attack on tariffs. He will need all the support he can get and perhaps his error in the watch case, by arousing the friends of trade, will strengthen his hand in the end. But the beginning is surely lamentable.

A 'Czar' for Comic Books

WHILE CENSORSHIP OF reading matter is to be avoided wherever possible, there is a growing volume of opinion that the publication of so-called comic books on this continent should be supervised.

In a notable number of recent cases, juvenile delinquents have admitted that they were avid readers of comic books. At least one of the quartet now charged in New York City with torturing and murdering persons found in the parks was devoted to the books which deal glamorously with just such deeds. A youth found hanged in his own home followed directions printed in a comic book and became his own victim.

The revelations of Dr. Fredric Wertham, published in his book "Seduction of the Innocent," con-

tain case history after case history showing the effect of a steady diet of sex, crime and horror on juvenile minds. The excerpts he publishes from various "comics" are more than convincing proof of the need for regulation.

The comic book publishing industry itself, spurred by public indignation, has already taken steps to correct some of the evils. Several of the top publishers will appoint a "czar," possibly a prominent jurist, to censor their products. But from the examples given by Dr. Wertham what is needed is not so much a czar to impose censorship as a conscience among the producers of these comic books to deter them from making money by poisoning the minds and destroying the morals of their youthful customers.

'Ten Seconds to Live'

THE MAN WHO WROTE THE graphic paragraphs of "Ten Seconds to Live," the impressionistic piece on the final moments of a car driver headed for death on the highway, is himself dead. Raymond A. Eastman, the 30-year-old Des Moines advertising man, was killed when his 1951 Jaguar hit a bridge abutment.

The tragic incident underscores a condition so common in automobile fatalities. Mr. Eastman recognized the dangers of driving. He understood the need for caution. Through his small pamphlet he had issued a

warning to countless other drivers—hoping that it might save them from the form of death that claims so heavy a toll of lives on this continent.

With that knowledge, with that perception, with that realization of the dangers of the road, he became a victim of the hazard he saw so clearly.

If there is a grim and unhappy moral to be taken from the mishap, it must be that knowledge and recognition of danger are not enough for the driver. He must continue to pay in unremitting caution the price in safe operation of a car demands.

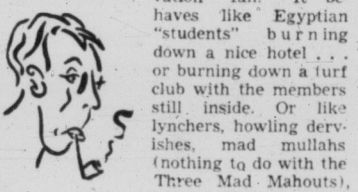

Chinese Screen

Chips

By DAVID BROCK

HAVE you ever been to a hockey game in New Westminster? It is something like hockey in Montreal. That is to say, the crowd is quite literally 'frenzied' in the true sense of the abbreviation "fan." It behaves like Egyptian "students" burning down a nice hotel . . . or burning down a turf club with the members still inside. Or like lynchers, howling derisively, mad mullahs (nothing to do with the Three Mad Mahouts), hyenas, female grizzlies protecting their young, and tomcats in love. Knowing this, you will not be surprised to learn that police arrangements for next season were already well in hand as long ago as last month.

At a joint meeting of the Police Commission and the Park Board (which owns the arena), it was agreed that a hockey referee is "not sufficiently trained in police work to direct officers in ejecting patrons." This branch of hockey, therefore, will be in charge of the deputy chief, in consultation with the referee. When somebody said a referee should have enough authority to keep order in an arena, the Chief of Police said no, "hockey fans are not normal people."

Too right! Sometimes they are inhuman, sometimes all but human, and sometimes too human. In a book on British Columbia, reviewed in this paper two or three weeks ago, Mr. Stewart Reid said that Vancouver is the most American of all Canadian cities, with all the faults and virtues that this implies. Well, well, and well. It would be interesting to know which American cities Mr. Reid accepts as typically American. I don't know many American cities, except Boston, New York, Seattle, San Francisco, and Los Angeles. None of these, except possibly Seattle, is much like any other city, inside or outside the U.S., so none of them is typically American. They couldn't exist except in America, but that doesn't make them standard American cities. Incidentally, Vancouver has a little in common with each of them.

For example, it was caused by many of the same things as Seattle was. It has a good deal of Boston's indifference (which I like) and its assumption of superiority (which I don't like). On a very small scale it has New York's mixture of races. Like Los Angeles, it has a fatal attraction for crackpots. (An American once told me that Southern California is very useful, because it acts as a sink to drain away all the really impossible

people from the rest of the country . . . an exaggeration, but one sees his point.)

As for the thing Vancouver shares, in a small measure, with San Francisco . . . it is hard to define. "It would be of little interest to anyone who has never felt it; while if you have already felt it yourself, you are aware that I can no more define it than you can. Suffice it to say that Vancouver people prefer San Francisco to most other cities . . . and not because of its strangeness, either. Both towns have a very odd combination of apparent laziness with quite a wide-awake fondness for ideas.

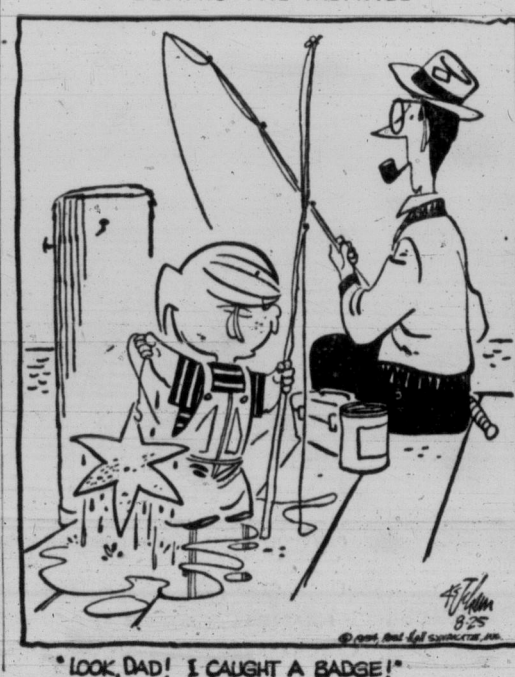

WELL, I suppose Mr. Reid meant that Vancouver, more than other Canadian cities, reminded him of Columbus or Des Moines or Duluth or one of those. It doesn't worship half so much as Toronto does. (Americans don't devote their thoughts to money, but foreigners do.) Including the French, who think about money twice as hard and often as the Americans do. It still likes Rugby football (I refuse to call it "English Rugby"), which is true only of itself and Victoria, for all practical purposes. It drinks very nearly as much tea as Victoria does.

CONTAINING, with its suburbs, almost half of B.C.'s population, it must share in B.C.'s claim to be the only part of Canada that still reads books. I bet Vancouver, like Victoria, also reads more English magazines and papers than does Winnipeg (where Mr. Reid lives). And not just to show off . . . with periodicals people find their own level, which isn't always true of books. Apart from a lunatic fringe, to be found anywhere, the University of B.C. is less rah-rah than most Canadian universities.

I HAVE no figures to prove it, but I think Vancouver must show more English movies, and run them longer, than do Toronto and Ottawa. In my opinion it has the best poet, the best novelist, the best composer, the best painter (and a few other bests in the arts) in Canada . . . not the best singers, who are always French-Canadians and if you are interested I will one day tell you why!

Not one of these Vancouver artists owes much to American influence, while owing a great deal to Vancouver influence. And while influencing Vancouver, these artists are to be what they are, and therefore it is not very strikingly the same as Kansas City. Kansas City may be a wonderful place in its own way . . . I have not been there. But I will bet that a man from Vancouver, poet or not, would feel less at home there than a man from Brandon or Regina.

DENNIS THE MENACE

From Our Files

Aug. 25, 1894—The first shipload of B.C. lumber for Egypt will start from Vancouver in a few days for Alexandria. The bark Verjean, 1824 tons register, will carry a cargo of 1,630 feet.

Aug. 25, 1914—London—Commenting on the fall of Namur, Belgium, to the Germans, after only two days' fighting, the Times says it is one of those inexplicable events which make war the great gamble it is.

Aug. 25, 1934—Names of newly appointed returning officers in the 245 Commons ridings in Canada were announced today in Ottawa. They were named by order-in-council. For Victoria: Sydney Child.

As Our Readers See It

NO 'EMERGENCY' POWERS

While fully cognizant that the so-called Social Credit League was returned to power with an overwhelming majority it is somewhat inconceivable that the majority of that following would wish it conveyed that their leader had invested himself with "emergency powers." The recent varied statements of the Premier of British Columbia must stir the thought in the most dormant minds that something far outside our parliamentary system is at stake.

First, there are the natural resources for the maintenance of the province and its governance with the consequent ease of taxation on its people; these should be inviolate from usurpation by any privileged class as now appears to be contemplated. The question of the potential wealth in timber on the West Coast should be thrown open to the bids of the smaller logging outfits and not placed under the control of the larger vested interests completely.

It is with dismay one watches the manipulation of political economies veering towards a form of pseudo-state control by the method of lobbying a government or by order-in-council by the latter with the intent that special interest can be achieved through the bypassing of the legislative body until the people's rights have been forfeited.

The matter of guarding the people's rights in the resources of the province lies with the civil service under our parliamentary system. Mr. Bennett must know all the implications conveyed in granting a few large timber czars "forestry rights" over a vast area will automatically lift the whole transaction away over the heads of that branch of the civil service: There would then be nothing to prevent the few timber barons from doing what is now so fashionable by merging into another of those huge monopolies that are becoming such a menace to the individual as such.

Secondly, we are again hearing the question raised about redistribution or additional seats in the House. Surely now that British Columbia is emerging from the retarded stage it would be much wiser to study the matter of proportional representation and thus have fewer members in the House, but a competent body of men and women with knowledge of statecraft and have them serve on the full-time basis; that would, or should, prevent the rushing through of important bills which have not been mentally digested, the consequence being loss of faith by the electorate.

ELLEN HART.
Chipperfield Farm, East Sooke.

It would appear the Yukonites and the Northwesters have little to gain and much to be confounded with by joining economic and political hands with B.C. They are better off as they are without being saddled with our problems.

A small bite of the Froebisher loaf plus a chance for autonomous government is worth more than a 100 per cent share in B.C.'s cake plus 40 years' accumulation of almost unsolvable economic and political problems.

Nest ce pas?

Box 125, Alford Bay.

The Arts Centre and the Civic Grants

The recent uproar over the refusal of civic grants to the Symphony and Arts Centre may have left certain feelings of confusion as to the situation of these bodies. The executive of the Arts Centre has requested me to state its position publicly so that any doubts as to the propriety of our request may be cleared up.

It is a truism to state that all cultural organizations such as symphony orchestras and art galleries have to be subsidized by someone. While their work is approved and their offerings patronized by a great many people, these people are apt to take them for granted; and are the first to deplore any curtailment of services.

Our Victoria Arts Centre is no exception. Last year roughly 30,000 people of Greater Victoria visited the Gallery, and quite a lot of them paid the nominal admission charge. Our charges for admissions, rent of rooms to other organizations, fees for classes and so on are kept at a very modest level in order that no member of the public is prevented from using the facilities of the Centre. Income from this source does not begin to cover expenses.

A large part of the grant which the Arts Centre requested the City to make represents unpaid taxes.

When the Arts Centre, through the generosity of Miss Sara Spencer, was installed in its present home, an arrangement was worked out with the then City Council under which the City of Victoria would take over and maintain the building and grounds which the Arts Centre would use and operate as an Art Gallery. Legal difficulties, however, were discovered, and this scheme came to nothing; in the result we are faced not only with the expense of maintaining a large

plant but with an enormous tax bill as well.

It is rather a lot to expect these burdens to be carried by a devoted few, who through donations and voluntary work have tided the Gallery over the never-ending bad times. A municipal grant to an organization which has become a necessity in our city would mean little to the taxpayer.

For simplicity's sake, let us reduce our request to the round figure of \$8,000 and the population of Victoria let us call 50,000. (These arbitrary reductions are not far off the true figures.)

A simple calculation gives us the figure of 16 cents per person for this year; and once the accumulation of taxes and past deficits is paid off, our operating loss would be reduced to something like six or seven cents per person per year—surely not an intolerable burden on the taxpayer.

We hope eventually to expand our buildings so as to provide fireproof accommodation for valuable exhibitions. As things stand now, exhibitions of old masters and other irreplaceable works of art are denied to Victoria for lack of a safe place to show them.

If the Victoria Arts Centre is to continue to grow and maintain its widely used facilities, assistance from the community at large is essential. Victoria, alone among Canadian cities with art galleries, contributes nothing to the support of its Arts Centre.

Apart from any other consideration, this attitude appears strange in a capital city which prides itself on its amenities; an attitude which I am sure does not reflect the feelings of its inhabitants.

M. L. TYRWHITT-DRAKE,
President,
Arts Centre of Greater Victoria.

At the Starting Line

By JOSEPH and STEWART

PRESIDENT Eisenhower's political curtain-raiser at the Illinois State Fair is the tip-off on the kind of campaign the Republican high command is planning for this crucial Congressional election. Peace and prosperity—"normalcy" in short—will provide the grand theme of the symphony. Speakers representing the national administration, and particularly the president himself, will stick to this theme pretty closely.

The charge that the Democrats have fostered Communism in government will be a local variation on the grand theme, to be played by the Congressional and Senatorial candidates themselves as they may think best.

However, the White House is more than ever discouraging party candidates from asking Sen. Joseph R. McCarthy to help them sound the anti-Communist note. Even the Republicans who sympathize with McCarthy are now shying away from the Wisconsin senator, because he has become a vote-loser as well as a vote-getter.

Finally, a touch of drama will probably be conferred on the campaign's grand finale by surprise indictments of important Democratic office holders.

The final decision on this point will be made later, when the White House has a better idea of the way the campaign is going. But if Republican prospects do not look too good—and maybe even if the outlook is excellent—Attorney-General Herbert Brownell is expected to set the justice department machinery in motion. At least one and perhaps two former high treasury officials, and a couple of Democratic Congressmen are reliably reported to be under consideration as targets.

TOUGHLY PROFESSIONAL This campaign plan is toughly professional. It does not play into the hands of the president's enemies in his own party. By the same token, it strongly plays up what the voters undoubtedly regard as the Eisenhower administration's most important achievement. It is fallible, of course, like any other campaign plan—the "peace and prosperity" theme can go sour, for instance, if there are any dramatically unfavorable developments abroad.

But on the whole, it is a shrewdly conceived plan; and it will be professionally executed, with ample funds to buy television and radio time and other valuable campaign commodities in quantities without precedent in an off-year like this one.

The Republican high command starts with one big advantage, moreover. The Senate is the real prize being fought for. Because of the usual off-year reactions, the Administration's prestige will not be

ALSO, From Washington

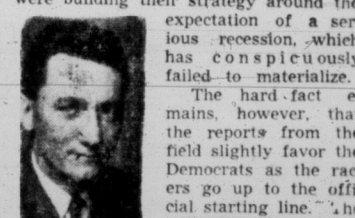

greatly damaged if the Democrats win the narrowly divided House by a small margin. In fact it will be a resounding triumph if the Republicans carry the House, even by a hair's breadth.

But the Senate, which is the main ring of the legislative circus, really must be carried if the Eisenhower administration is not to suffer the kind of set-back that has normally proved fatal in American politics. And this year, only 13 Republican-held Senate seats are being contested (including two long term and one short term in Nebraska), whereas no less than 21 Democratic seats are in contest.

The Democrats have got to win two more disputed contests than the Republicans if they are merely to hold their own. To capture the evenly divided Senate, the Democrats must win three more of the doubtful seats than the Republicans. In these respects, President Eisenhower is in luck.

CHANGED STRATEGY

The Republicans have had good luck in other ways, too, in the death of the strongest Democratic candidate, Blair Moody, in Michigan, and the nomination of the weakest Democrat, the ex-Wallaceite Glenn Taylor, in Idaho. Finally, many Democrats conspicuously including Sen. Paul Douglas in Illinois, were building their strategy around the

expectation of a serious recession, which has conspicuously failed to materialize. The hard fact remains, however, that the reports from the field slightly favor the Democrats as the racers go up to the official starting line. "He odds the professionals quote are 'everywhere,' but Democratic contenders have a slight starting edge on Republican contenders in about two-thirds of the doubtful states. That is the problem which the Republican campaign plan, and above all the President's personality, have now got to solve.

MARKED for READING

LOOKING THE PART

You want a poet to look like a poet, not like a bus-conductor or a charlady—though I intend no disrespect to those servants of the public. . . . We must regret that modern life is transforming not only the poet, but all of us, into drab nonentities, but offer thanks to the Muse that poetry is able to look after herself, no matter what appearance her worshippers and practitioners present to the world.

—James Kirkup, British poet.

A Speed-Up for Parliament

THE controversial question of revising the procedural rules of the House of Commons is to be the first item of business brought before the next session of Parliament. The government is determined to bring before Parliament changes in the rules necessary to expedite business dealt with by the House of Commons and to make its handling of the mounting volume of material more efficient.

There has been no decision yet whether the next session is to be called this fall or its opening postponed until mid-January. There are indications, however, that the government may decide to wait until after the New Year to convene the next session.

The last session prorogued June 26 after sitting for 139 days. It established a new modern record for lengthy sessions and was a disappointment to Prime Minister St. Laurent, who had called the session in the fall of 1953 in the expectation it would complete its work by the end of May, 1954, at the latest.

Throughout the last session a special committee consisting of representatives of all parties under the chairmanship of Speaker Rene Beaudin wrestled with the problem of revising the rules. Hon. Walter Harris, who was House leader and minister of citizenship and immigration, was the chief government spokesman on the committee. When he sought to have the committee reach agreement on recommendations to be made to the House in the dying days of the session, there was strenuous opposition from Progressive Conservative, CCF and Social Credit members.

Upshot was that the committee merely brought before Parliament a recommendation that it be set up again at the next session. However, it is understood that at the next session the government will make this the first item of business and devote as many weeks to it as are necessary to bring about some much-needed changes in rules of procedure. The question will probably be brought up immediately after the Throne Speech debate.

Mr. Harris, now minister of finance, is expected to carry on as House leader at least until the revision of the rules business has been completed. It may be that because of the heavy burden of the finance portfolio, he may relinquish the House leadership duties midway through the session, and Hon. J. W. Pickersgill, minister of citizenship and immigration, may become the new House leader.

Mr. Harris recently, in an address to the

South Ottawa Liberal provincial convention, said that next session the government "will do the job" of streamlining Commons procedural rules. He added, "The government has the responsibility of seeing that Parliament becomes an efficient debating forum and an efficient instrument for carrying out the business of the nation."

Some of the changes the government may hope to bring about in revising the rules are:

1. A procedure for establishing limits for major debates such as the Throne Speech debate and the budget debate. Contemplated is a reduction to eight sitting days for the Throne Speech debate and perhaps the same for the budget debate.

2. Cutting of the time limit for members' speeches from 40 to 30 minutes. There would be no change in the present rule of unlimited time for the opposition leader and any opposition member moving a want-of-confidence motion would not be restricted as to time.

3. The fixing of a specified number of days for discussion of private members' resolutions and bills.

4. Improved arrangements for tabling of departmental reports, documents, orders for return and answers to questions on the order paper.

5. Committee reports would not be read unless a committee chairman indicated his intention to move concurrence on the same day that the report was tabled.

6. A limitation may be proposed on the length of debate on motions to adjourn the regular business of the House to "discuss a matter of urgent public importance."

7. Naming of House committees earlier in the session so that government bills could be referred to them earlier following second reading.

8. A time-saving device for informing the Commons His Excellency the Governor-General has been informed of the subject matter of government legislation and recommends it to the consideration of the House.

9. A new method of Parliament handling divorce bills from Quebec and Newfoundland.

10. A more efficient and expeditious procedure for considering departmental estimates. This might take the form of referring the estimates to specific committees such as already done in the case of the Canadian National Railways, Trans-Canada Air Lines and the department of external affairs.

11. More opportunities might be provided for opposition groups to move amendments on going into supply to be scattered throughout the duration of each session.

12. A more expeditious method of handling bills previously passed by the Senate might be proposed.

Mackie

YOUR HEALTH

By DR. WALTER C. ALVAREZ

A Handicapped Child

Dr. Alvarez is Emeritus Consultant in Medicine, Mayo Clinic and Emeritus Professor of Medicine, Mayo Foundation.

I have just been reading a remarkable book written by a devoted mother, Mrs. Charlotte P. Tucker, about her handicapped daughter, Betty Lee (Macmillan, \$3). Mrs. Tucker writes so well and so interestingly that every parent of a handicapped child should read this book, and get the spiritual help that it can give.

As Mrs. Tucker says, the first question asked by every mother when her child is born is, "Is my baby all right?" In this case the child was beautiful from birth, but apparently there had been a little hemorrhage in the brain and, as a result, the child could not learn to talk. Like most mothers, Mrs. Tucker had to go four years before she faced the fact that her child was handicapped, and was going to stay handicapped. When she finally faced this fact she felt she had "reached an impassable stone wall." Fortunately enough of her child's brain was left intact so that she was wide awake, and had a good sense of humor.

Mrs. Tucker believes that in these cases it is highly important that an early diagnosis be made; but, as she says, it is a hard thing for the mother to face, and the doctor's matter-of-fact verdict may seem terribly cruel. Like all other mothers in this situation, Mrs. Tucker kept looking for some loophole, always refusing to accept the awful truth. As she says, "No matter how serious the handicap your child may have, he is a human being with the same feelings and longings as any other child, he craves love and affection; he is sensitive to hurts, he can be happy or discouraged, and he can appreciate a feeling of security and of being wanted."

NO CHOICE FOR MOTHER

The recognition of the handicap of the child "Strikes a blow so deep and near to your heart that it can never be healed; it is a wound that is always open, and you will be ever conscious of the hurt." When the book was written Betty Lee was 33. As Mrs. Tucker says, life is important to the child; she is not different in all ways, because she is a human being with many of the same feelings which I have. She is sensitive, and has emotional reactions; her five senses function true, she is dependent upon me; she has no academic education; while certain areas of her brain have been destroyed and

others affected, her physical life must go on."

"As a mother I have no choice; I love her. My thoughts are ever centered around her. I want to make her happy. She is my inspiration for my efforts to be of benefit or helpful in some small way to those who are handicapped."

Eventually, Mrs. Tucker concluded, as Mrs. Pearl Buck did with her handicapped child, that she had better put her daughter in a school or a home where she could be well cared for in case her mother died. It was terribly hard to make this decision but it was a wise one.

THE MARRIAGE OF COUSINS

Why do everyone fear the marriage of cousins? From ancient times it has been known to everyone that some such marriages result in defective children.

Today geneticists tell us that the marriage of cousins is not to be feared if the stock is good. In that case the cousins will not be silent carriers of some nervous or physical defect. What is dangerous always is the marriage of a man and woman both of whom are carrying latent some bad inheritance. Two such slight tendencies can re-enforce one another, and then one or more of the children can have some manifestation of the family curse.

I remember a husky fellow who married his niece. They had a number of children, none of them defective in any way. Why? Because in their clan there were no defects to be passed on. If, however, there had been some hereditary disease of the brain, the blood, the muscles or the bones there could have been trouble.

Actually, two cousins who want to marry would do well to go to a university school and ask the professor of genetics to study their family trees and then to tell them how big are the dangers they would run if they were to have children.

NEW CANCER HOPES

In the last report from the Sloan-Kettering Institute of the Memorial Center for Cancer and Allied Diseases in New York, they told of 10 chemical compounds which have been found to produce permanent cure in the cases of animals affected by certain types of cancer. With some forms of the tumor some of these drugs will cure 100 per cent of the animals. Others cure 83 per cent, or 67 per cent, or 95 per cent. Unfortunately, these drugs are not working in so promising a way in the cases of men, but the fact that several chemical substances have now been found that will cure cancers in animals is most hopeful.

Ike Wins 3 Out of 4 Foreign Aid Battles

President Only Loses Fight on Foreign Trade; Biggest Victory on Atomic Issue

By JOHN M. HIGHTOWER

WASHINGTON (AP)—President Eisenhower won three of his big foreign aid battles with the United States Congress in the session which ended last week. He lost a fourth, which may hamper severely his policies for tightening U.S. relations with allied countries.

Here is the record:

1. Foreign trade—Eisenhower's major setback. Congress balked at the president's program for lowering tariffs to encourage allied and friendly countries to trade with the U.S.

Eisenhower succeeded in getting mainly a simple extension for one year of his bill to negotiate tariff-cutting trade treaties, but none of the new authority he asked to lower tariffs through such treaties.

HELD AS SIGNIFICANT

Diplomats attach great significance to the record on this issue because American foreign aid programs, aside from military, are rapidly coming to an end, and many countries are worrying about where necessary dollars will be obtained.

2. Foreign aid—Congress voted a total of \$2,781,000,000 for the current 12-month period. It was around \$700,000,000 less than the nearly \$3,500,000,000 requested by the president.

Administration officials indicated that the cuts are not crippling, however, and should not be interpreted by foreign governments as evidence that the U.S. is withdrawing into a shell. Other governments constantly look to U.S. congressional action for evidence as to whether the legislators are on the whole supporting the president's program of "partnership" with friendly countries. About 80 per cent of the total for foreign aid is for military purposes.

3. Atomic—The president registered possibly his greatest victory on this issue. He gained authority, although not all he asked, to transfer to American allies in Europe secret information about the effects of atomic weapons and such information as size, weight and shape of these weapons.

BRICKER MOVE DEFEATED

4. Bricker amendment—Eisenhower won a tough fight when the Senate declined to go for the constitutional amendment put forward by Senator Ralph Bricker (R-Ohio) to restrict presidential powers to make international agreements.

There was a fifth great issue which never was officially presented to Congress, although members spent many an hour making speeches on the subject—how to save southeast Asia from Communist conquest.

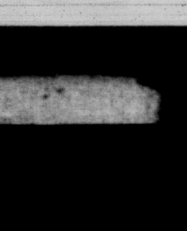

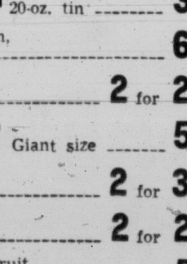

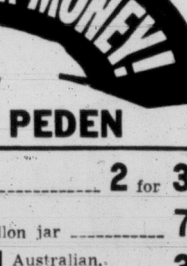

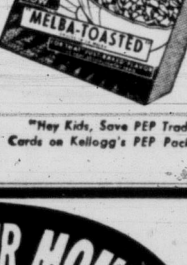

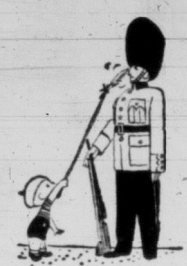

The program of legislation turned out will have a long-range important bearing on U.S. foreign relations aside from immediate effects.

American Airlines Back in Service

NEW YORK (AP)—The first American Airlines plane to fly in 25 days took off from La Guardia Field today for Rochester and Buffalo, N.Y. Other flights followed.

American's planes were grounded by a strike of the line's 1,243 pilots.

N.Z. Girls Seen Under Sway of Evil

Flier's Death May Be Linked To Terror Group

CHANUTE AIR BASE, Ill. (AP)—Officials at Chanut air force base have reopened the investigation of the pistol death June 6 of an airman, hitherto considered accidental, and linked it to the terrorist Pachuco Society.

Maj. Gen. Byron E. Gates, commander of this technical training base of 15,000 men, said an airman held for questioning in the slaying is an admitted Pachuco. The airman, who was not identified, is one of 50 gang members held in the stockade.

The roundup of the 50 followed offenses which Gates said ranged from being AWOL to marijuana addiction and to "savage assaults on members who had 'ratted' on Pachuco."

Pachuco members take an oath, signed in blood, requiring them to carry knives at all times, perform acts of violence and pledge to give no information to law enforcement officers.

YOUTH CRIME TAKES JUMP IN ALBERTA

EDMONTON (CP)—Alberta's juvenile crime is steadily increasing.

During the year ended March 31, 578 juveniles committed 1,071 offenses, an increase of 91 youths and 246 offenses over the year previous.

Fifteen-year-olds accounted for the largest number of crimes, reports the provincial government's juvenile offenders' branch.

Of the offenders, 465 were boys and 113 were girls.

Breaking and entering was the most common offense, with 349 juveniles involved. Thefts ranked second, with 229 offenses committed. Auto theft showed the greatest upsurge, with 185 thefts reported, compared with 96 in the previous year.

JAYCEE PRESIDENT SAYS:

Lewd Comic Books Spread Moral Decay

ALBUQUERQUE, N.M. (UP)—E. Lamar Buckner, national president of the Junior Chamber of Commerce, charged today that "lewd and lawless" comic books threaten to spread "moral decay" among children.

Buckner blamed careless parents for not asking "What kind?" when their children asked for a dime to buy a comic book.

Buckner said the danger in these comics is the "power of suggestion" of lurid stories based on sex, crime and murder.

"Throughout history, the fall of every great power—Persia, Greece, Rome or France—has been preceded by a moral collapse," he said. "If we are to shield ourselves from the same collapse, we must make sure the leaders of the future develop a high moral integrity."

Buckner said the comic book "pictures beyond the reach of the young imagination" methods and means of the criminal or immoral mind. "Comics seem to glorify in their ability to produce lawless situations, and to idolize the individual who circumvents the law," he said.

He blamed the existence of such comics on parents who fail to supervise their children's reading material and on publishers who justify sale of the books under freedom of the press.

Announce New Way To Shrink Painful Piles

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And

Break Commandments Urge of Suspects

CHRISTCHURCH, N.Z. (Reuters)—Two teen-age girls on trial for murder today were declared to have written out all the 10 commandments "so we can break them."

Psychiatrist R. V. Medlicott, called by the defense to support its contention that Pauline Parker, 16, and Juliet Hulme, 15, were insane, read excerpts from Pauline's diary to show that the girls became "helpless under the sway of evil."

Juliet and Pauline have pleaded not guilty to the charge of murdering Pauline's 45-year-old mother, Mrs. Honora Parker, to death two months ago with a brick wrapped in a stocking. Medlicott maintained today, in four hours on the witness stand, that he believed the two were legally insane.

The psychiatrist said that Pauline's diary "rises to a quite fantastic crescendo as it goes on. Evil becomes more and more important and one gets the feeling that they become helpless under its sway."

West Germany Moves Against Crime Books

BONN (AP)—The West German government and educators have started a campaign against what they call the "damaging influence" of sex and crime literature on German youth.

Parliament has just passed a law forbidding the sale of certain crime and sex literature to minors and banning the display of such books or magazines on newsstands.

To insure that the law is observed, the federal government has now established an agency to investigate books and magazines that might endanger German youth.

This agency already has blacklisted 40 books, one of them the German translation of Mickey Spillane's "Vengeance Is Mine."

Spillane joined such authors as Italy's Pitagalli, whose "18 Carat Virgin," "The Chastity Belt" and the "Wrong Way" have been blacklisted for German youth.

Some of the book titles alone explain why they have been banned. One is titled "Touring Through the Beds of Europe" others "The Misused," "World After Midnight," "Luring Vice" and "Modern Love Play."

"That freedom has always been subject to the right of civilized society to protect itself from conditions injuring the health, welfare and morals of the people," he said.

Buckner announced that the national board of directors unanimously passed a resolution to organize committees in each community to investigate comic books and to urge steps appropriate to their findings.

But the board has not categorically condemned all comics. "Ordinary good taste can differentiate between the modern Aesop fables type of comics which any youngster can enjoy and those which are harmful," he said.

He said the Jaycees are not attempting to control what children read, but are simply taking a "positive approach" to what he said must be recognized as "one of the chief dangers to our society."

'MADE SOUND LIKE BUMBLE BEE'

Two Women Talk With Man In (Sigh) You-Know-What

OSLO (Reuters)—Two Norwegian women claim that last Friday they had a lengthy rendezvous with a long-haired foreigner and his "flying saucer."

This is the story the women—sisters aged 24 and 32—told, according to police and reporters:

They were picking berries when a dark, long-haired stranger appeared and motioned them to a hollow, where they saw a two-wheeled saucer contraption 16 feet in diameter.

He jabbered a strange language at them, gestured and

'Flying Tigers' Seek Canadians

MONTREAL (BUP)—A set up in the United States as well as the backing of Gen. Claire Chennault, famed leader of the wartime Flying Tigers, "The Far East" has got to stand (against Communism) on its own legs," Mah said. "Our idea is that we have got to help provide the strength for the legs."

Mah and other Canadian fliers helped make headlines 10 years ago when they flew over the Himalayan hump to keep open vital supply lines to China in the war with Japan.

One-time air ace Al Mah, formerly of Prince Rupert, B.C., was lining up recruits for a volunteer force of cold war "Flying Tigers" to move into far eastern hotspots and join the battle against Communist aggression "in any way we see fit."

Mah, a veteran of the Second World War, the Korean conflict and many incidents off the China coast, is Canadian organizer of the force now being

Sports-Writer Completely Dazed, as Usual

Dr. Lee Grable, the only hypnotic wrestler in the business, has a way with sports writers—he charms them with this piercing eyes and soothing voice. Times' staffer Denny Boyd fell under the spell of Dr. Grable Tuesday and has recorded his reactions of being sound asleep in broad daylight, which is actually nothing new. In the inset, the burly Dr. Grable is seen putting Boyd under the hypnotic

spell. Above, under the spell and completely rigid from head to toe, Boyd rests between two chairs, head and shoulders on one and heels on the other. Dr. Grable, who wrestled here Tuesday night, will be back for at least one return engagement and will demonstrate his hypnotic powers for the benefit of wrestling fans. (Times photos by Irving Strickland.)

IT'S MY VIEW

By BILL WALKER, Sports Editor

Victoria Shamrocks have rolled into the Intercity Lacrosse League finals for the fourth time in five years. This is a tremendous tribute in itself for the Irish, and this may be the best of all Irish seasons.

As manager Ralph Baker said following Monday night's series clinching an overwhelming 12-5 victory over the Vancouver Pilseners:

"There is a tremendous potential in the club; it's just a question of getting it out."

Practically the same words were said before the season began and after the acquisition of such established eastern stars as Gordy Johnston, Nip O'Hearn, Jack Sibbald and Jack Bionda.

But now they are still as meaningful, perhaps even more so. For despite the Shamrocks' waltz to their fourth successive Intercity League title, another great record of which the club can feel justly proud, there still exists the feeling that the potential has not yet been fully realized.

On occasions the Shamrocks have shown their awesome power, as they did in coming from behind a two-goal deficit to defeat a good Pilsener club Monday.

But at other times they have relaxed into a complacency born of belief in their own ability. And at those times they have looked very ordinary indeed.

Knew Their Task and Performed Well

However, it now could be that the mythical barrier has been hurdled. In defeating the Pils Monday, the Rocks were not satisfied in "just winning" as they have been wont to do several times this season. They refused to stand still once their superiority had been established, and as the game wore its course the Rocks never once relented in pursuit of their objective.

It is lacrosse of this type that they undoubtedly will need in the forthcoming league playdowns. And it is such a diligent approach that will stand them in good stead if they are again successful in contesting the Mann Cup championship, be it here or in eastern Canada. No other will suffice as well they should know.

And now the glory road beckons again for the team that has done more than all others to keep Canada's national game alive in the west these past few years. And with the sting of last year's defeat at the hands of Peterborough Trailermen still fresh, and ranking in their memory, it could be that Baker will yet see the potential that he speaks of.

It is there in abundance. Of that there is no doubt.

Certainly They Deserve Better

The Rocks appeared only shy that always valued experience against Peterborough last season. That and a few proven players to plug the voids that were shown to exist in that series.

In appreciation of the efforts on the part of the club executive in overcoming these deficiencies, Victoria lacrosse fans have flocked in increasing numbers to Memorial Arena this year.

That should be proof enough that others besides the management are certain that herein may lie a future Mann Cup champion. And now with that particular incentive, and all it signifies, strictly before them, the Irish should be able to answer Baker's other point.

"It's just a question of getting it out."

With the chips on the table, we think they'll be ready.

And few will question the thought that the Rocks deserve to fill the inside straight this time.

APPLICATION APPROVED

Regina To Join WHL But Not Until 1955

CALGARY (CP)—Directors of the Western Hockey League Tuesday approved the application of the Regina Hockey Club for a franchise. However, the directors agreed the club would not become active until the 1955-56 season. League president Al Leader said in a statement following a special closed meeting: "The Regina club was willing and ready to operate the coming season but it was felt that due to the time element involved it would provide an almost impossible task to assemble a competent hockey club so late in the season."

He said the directors were "pleased" with Regina's application to join the six-team circuit and the Regina club was "equally pleased" at the reception received from the league directors.

Leader added, "The multitude of details involved in getting club together made it almost a prohibitive task to be ready to operate the coming season."

Given a year to prepare, he said it was felt that Regina will prove a valuable addition to the league and will have a club "the people of Regina will be proud of."

BOYD BUCKS HYPNOSIS ... LOSES

Dr. Grable No Phony, Dazed Scribe Murmur's

By DENNY BOYD

GRABLE WINS

Bulldogging Replaces Hypnosis

"It was the bulldog headlock that got him—not hypnotism!" said Dr. Lee Grable after defeating Bob Cummings at 13-43. However, the handsome wrestler came back to take the next two falls from the "Texas man-hander" at 5:27 and 5:05.

Later in the dressing room Dr. Grable explained that hypnosis was impossible against his opponent. He couldn't get the "sleeper hold" on Cummings to put him "in a semi-conscious state."

In the local opener, Gordy Gordienko took the win after pinning young Jack Thunderbird at 14:52. Young Thunderbird at first seemed to be winning by using one of his father's tricks, the head-and-twist. But Gordienko's seemingly illegal tactics proved too much for the young grappler.

The special event featured tricky fighters, Danno Macdonald and Johnny Demchuk, the "Ukrainian Thunderbolt."

In a good clean fight that lasted 17 minutes and four seconds Demchuk's thunder failed to materialize as Macdonald's clever footwork and fancy holds enabled him to force the Ukrainian to surrender.

In a return match between Roger Mackay and Ivan Kamiroff, Mackay was too wily. Mackay, using such "popular" tricks as hair pulling and rope twisting, got the upper hand and soundly trounced the "Powerhouse" with a knee spike and a post smashing.

FANS DISPLEASED

Unable to continue for the deciding fall, Kamiroff asked for a five-minute rest. Mackay, who had the final word, turned down the request and stomped off to the dressing room amidst loud booing from the spectators.

Kamiroff was counted out for the third and last fall.

Fosters Kayo

League Champs

Joe Fosters opened a best-of-three senior B men's softball knockout series on a successful note Tuesday night at Heywood Avenue Park by whipping city and league champion Tillamook, 7-1.

Fosters' Jack Girard tossed a neat seven-hitter and was backed by errorless fielding by his mates.

Second game of the series is scheduled for Thursday night at 6:30 at Heywood Avenue Park.

Line-score follows:

Team	R	H	E
Fosters	000	205	000-7-1-0
Tillamook	010	000	000-1-7-0

Jack Girard and Peterson, Mark Cunningham, Denny Beaulac (6) and Perkins.

BOWLING MEETING

The Canadian Legion Five-Pin Bowling League will hold its annual general meeting Friday night at 8 in the Pro-Patria clubrooms.

All equipment from last

year's United club has been turned over to the team through the generosity of George Eade, manager of United.

"George is 100 per cent behind the new club," said Restell. "His co-operation has been wonderful."

Club officials have also announced a season ticket plan whereby season ticket holders may see all regularly scheduled home league games for the sum of \$5.

On a game-to-game basis the cost would be \$7.50 for the 15 home contests scheduled for Athletic Park.

Byford Awarded Maitland Trophy

Pils' Star Most Valuable

A reluctant Jack Byford Tuesday night was named winner of the Maitland Trophy, awarded each year to the Intercity Lacrosse League player deemed most valuable to his club by trustees in charge of the trophy.

Byford, the skinny Vancouver Pilseners' defenseman, was surprised when informed of his selection and said, "They must have picked my name out of a hat. I've had better seasons than I had this year."

The selection of Byford was made by Frank Bird and Jim McConeghy, trophy trustees, and one member of the Intercity Lacrosse League commission.

Last year's winner was Whitey Severson of Victoria Shamrocks and PNE Indians' goalie Stan Joseph won it the year before. Other recent winners have been Shamrocks' Arnie Ferguson and Jackie Northrup, when the latter was with New Westminster.

Other players who were considered for the trophy were Jack Bionda and Bob Monaghan of Shamrocks, Arnie Duggan of Nanaimo Native Sons, Lew Landess of New Westminster Salmonas and Jake Procter and Joe Durante of PNE Indians.

PENALTIES HURT JACK

It was pointed out that Bionda and Duggan received serious consideration but that their chances were hurt by their penalty totals.

The slender Byford, who weighs only 150 pounds in spite of his six-foot height, scored 57 points this year from his defense berth to finish ninth in the individual scoring race. He had 22 goals and 35 assists.

Now 26, John Frederick Byford had played lacrosse on the mainland at the age of nine. He broke into the senior ranks with Richmond Farmers in 1948, playing centre. In 1949, he switched to Burrards and was with them when they won the Mann Cup by downing Eddy Powers' Hamilton Tigers.

Byford was with Burrards again in 1950, went to Indians in 1951 and 1952 and has been with Pilseners for the last two seasons. He switched to defense three years ago.

WITH ROCKS

Byford was picked up at the end of the season and played four games with the Victoria Shamrocks in the Mann Cup finals against Peterborough here last summer.

Byford married the daughter of well-known basketball referee "Gummy" Leach and they have one daughter.

The trophy, in memory of R. L. "Pat" Maitland, former attorney-general of B.C. and an original member of the lacrosse commission, will be presented to Byford tonight in Vancouver during the final game of the semi-final playoff between Indians and Nanaimo.

Tennis Draw

Tonight's draw in the annual Victoria Lawn Tennis and Badminton Club handicap tournament follows:

5:30 p.m.—D. Price and N. Weir vs. M. Bassett and S. Christie; G. Grigor and D. Willett vs. J. Butler and K. Wells; B. Parish vs. C. Kinis; K. MacArthur and D. Henson vs. B. Williams and J. Shallock; S. Kowak vs. Wells; MacArthur and Roberts vs. Parker and Matthews; Jones and Crocker vs. B. Miller and Terry; S. Whitaker vs. B. Richardson and Thompson (one set); 4:30 p.m.—N. Weir and Wells vs. D. Price and Gowan; B. Parish and Matthews vs. N. Northrup and Cox; Willett and Henson vs. D. Willett, left and Binky; Taylor and Lang vs. B. Woolson; Tolson and Baylis vs. winner of Lewis and Henson vs. Pollard and Davies; Hartley vs. Eburn.

Practice Shoot Set at Gun Club

The Victoria Gun Club will hold its final pre-Christmas shoot Sunday at the Albert Head grounds, a warm-up shoot for the coming hunting season.

Hunters who will be gunning for blue grouse, September 4, can get some practice shooting Sunday on the two skeet and four-trap lay-outs at the club. Shooting will get under way at 12 and ammunition and refreshments will be available on the grounds.

Hoop Meeting

Anyone interested in playing senior A basketball this season is urged to attend a special meeting Friday night at 7 at the YMCA.

Sports

8 Victoria Daily Times WEDNESDAY, AUG. 25, 1954

FOYCHUK SERIES HERO

Fletchers Take City Ball Title

Fletchers 5, Arrows 1

(Fletchers win best-of-seven series, 4 to 1)

Cec Fletchers added the City Championship to their league softball title Tuesday night when they defeated Arrow Furniture in the fifth game of their best-of-seven series to climax a highly successful season.

Fletchers won the first three games of the playoffs, dropped a decision Monday night and came back last night behind the four-hit pitching of Ed Foychuk to pin a 5-1 loss on the furniture squad.

Fletchers now engage Duncan in a best-of-five final for the Island title with the first game scheduled for Athletic Park Thursday night.

Second game is slated for Duncan Sunday afternoon, the clubs returning to Victoria Monday night.

Fletchers, who won the title under the banner of Capital City Gasmen last year, can thank the strong arm of Foychuk and also their ability to put together a big inning for the series win.

Foychuk won his third game of the finals, his 13th victory of the season, and his seventh over Arrow Furniture.

For the fourth time in the series Arrows scored the first run of the game Tuesday, but Foychuk stopped them cold

after the second inning. In fact Arrows never got enough runners on base to win the game.

Two singles and a passed ball gave Arrows their run in the second inning. But after Hal Yardley beat out an infield hit in the third until John Furmston tripled in the ninth Arrows never had another man on base. Foychuk took 17 in a row, never walked a man and struck out eight.

BREAK LOOSE

Fletchers' big inning came in the sixth. Trailing 1-0, they made their move. Bernie Clarkson, who had a perfect four-for-four night, opened with a single. He moved up on a passed ball and Verne Evans, the next batter, walked.

Ab Wiebe then stepped into the first pitch and lined out a long three-run homer to right centre that was enough. But Flori Goeagan kept the inning alive with a single. Then with two out, Ross walked Les Wilson. Pitcher Foychuk doubled to centre to score both runners and chase Ross from the hill.

John Furmston came in from left field to finish up. He got by the final two innings but it was a case of being a little too late.

The big man in the series undoubtedly was Foychuk, but he got a lot of help from his batting stars. Bernie Clarkson in particular was a thorn in the side of Arrows. He had 11 hits in the series in 24 times at bat.

Line-score follows: Fletchers 5, Arrows 1. 010 000 000-1-4-0. Cecil Fletchers 000 003 000-2-2-0. Ross, Furmston (6) and Kishaw; Foychuk and Wilson.

SOCCER PRACTICE

Heaneys senior soccer team will work out at Hollywood Park Thursday night at 7 and Sunday morning at 10:30. All last year's players and anyone interested are invited to attend.

SHORES, EDMONTON IN TIE; MEET TONIGHT

EDMONTON (BUP)—The Alberta-British Columbia semifinals, for the Dominion soccer championship went into a fifth game today after Edmonton and Vancouver North Shore battled to a 1-1 tie for the second straight night Tuesday.

The winner meets Manitoba for the national championship held last year by New Westminster.

Jimmy Lawson of Edmonton and Ab Travis of North Shore were the goal-getters. Referee Bob Graham called the game because of darkness after 26 minutes of sudden-death overtime in which neither team managed to score.

Marlene's Glory Shared by Dot

POINTE CLAIRE, Que. (BUP)—Britain's powerful Curtis Cup team left for Ardmore, Pa., and an Anglo-American battle today after showing their stuff with a 12½ to 3½ victory over Canada's top women shotmakers at the Beaconsfield Golf Club.

LANDY DENIES RETIREMENT

BERN, Switzerland (Reuters)—John Landy, Australian holder of the world mile record, Tuesday denied reports that he intends to retire.

Landy, beaten by England's Roger Bannister in the mile event at the British Empire Games in Vancouver last month, said such reports are "entirely incorrect."

Although he has given up serious running for the rest of this season, the Australian ace said he has no intention of retiring.

Eskimos. Hard Hit By Injury Hex

EDMONTON (CP)—Edmonton Eskimos are doing last-minute shopping for players.

"We will try to pick up a couple of other boys to relieve our injury situation," executive manager Al Anderson said Tuesday after a meeting of the club management. "We will probably have to secure somebody."

Thirteen Eskimos have been injured, 12 in a five-game road trip and the other in pre-season training. Seven are imports and three—perhaps four—are out for the season.

Anderson declined to comment on whether the Western Interprovincial Football Union club has any prospects to fill the gap. Eskimos have until Sept. 6 to declare their 10 imports.

Mrs. Thirlwell Tops Medal Golf

Mrs. B. Thirlwell took double honors Monday in a medal round for women golfers with handicaps of 15-and-under at Victoria Golf Club.

Mrs. Thirlwell captured low gross laurels with an 88 and also took the low net section with a 77. Miss M. Mahoney was low net runner-up with an 81.

Ferguson Honored

TORONTO (CP)—Rich Ferguson, Canada's fastest miller, was honored Tuesday at city hall. He was welcomed by Mayor Leslie Saunders on behalf of the city, and presented with a congratulatory letter.

Ferguson, who ran the mile at the British Empire Games in 4:04.6 to finish third behind Bannister and Landy, said he is taking a complete rest.

Russians Favored In European Games

BERNE, Switzerland (AP)—Russia unveils today the result of two years of dedicated, almost military-like drive, to rival the United States as the dominating world power in the 1956 Olympic track and field.

The scene is Tony Neufeld Stadium, site of the European athletic championships to which 928 track and field stars from 28 countries have been drawn.

The five-day games open at 10:30 a.m. (EDT) with a ceremony reminiscent of the Olympic contests.

The Soviet Union will field a team of 74 men and women. The men appear almost certain of three championships. The women may run off with every title and should place one, two, three in many.

Track and field may be a more pleasant pastime to some westerners but to Russia athletics have a political tinge and "outstripping the capitalist world has its place on the cinder track as well as in the tractor factory."

These European champion-

ships could turn into an Iron Curtain triumph in sports.

Czechoslovakia is bringing a squad headed by the great Emil Zatopek, world record holder at 5,000 and 10,000 metres as well as a host of other distances.

The Hungarians stand an excellent chance of winning the hammer with Olympic champion Joseph Csermark, the discus with Ferenc Kili and the broad jump with Olan Foldessy. Their 1,500-metre man, Sandor Rharos, could upset Britain's four-minute miller, Roger Bannister.

Boston	53	78	.406	37
Washington	51	70	.421	38
Philadelphia	41	81	.335	49½
Baltimore	39	85	.313	51½

NATIONAL LEAGUE	W.	L.	Pct.	GB.
Cleveland	81	55	.595	—
Philadelphia	81	55	.595	—
St. Louis	77	44	.636	4
Brooklyn	74	49	.600	7
Pittsburgh	68	58	.541	12
Cincinnati	58	62	.483	19
Chicago	58	62	.483	19
St. Louis	58	62	.483	19
Chicago	48	75	.390	30
Pittsburgh	45	78	.366	33

Realizing that a fourth place finish could mean as much as \$1,000 to every player, particularly if the Indians and Giants meet in the world series, the Tigers grimly held on to fourth place by one game, by beating the Red Sox, 8-7, Tuesday night.

The Detroit victory left Boston in fifth place, only two games ahead of Washington, which bowed to Chicago, 4-0.

A mere half game separates the Phils, Redlegs and Cardinals in their private war, Cincinnati, trying to crash the first division for the first time in 10 years, was mauled by Brooklyn, 12-4, last night, the Dodgers remaining four games behind the pace-setting Giants, who defeated the Cubs, 5-1. Milwaukee topped Philadelphia, 5-1, and Pittsburgh edged St. Louis, 8-7.

YANKS GAIN

The Yankees climbed to within 4½ games of the pace-setting Indians with a 9-2 decision over the Orioles, who dropped their 13th game in a row, while Philadelphia looked Cleveland, 4-1. Yogi Berra, hitless in 15 straight times up, snapped out of his slump with his 16th homer and a single to pace the Yankees' 11-hit attack.

Whitey Ford was the winner although he strained his forearm and gave way to Allie Reynolds in the sixth inning.

Jack Harshman, a Giant discard, was poison for the Senators, limiting them to four hits, striking out 10 and hitting his second homer of the season as he kept the White Sox 4½ games behind the Yankees.

Coast Race Still Tight

San Diego and Hollywood are still a game apart in the torrid Pacific Coast League pennant race.

Hollywood kept its lead Tuesday night by snapping sharply out of a bad hitting slump and shading the red hot Rainiers of Seattle, 6-5, while San Diego got a six-hit pitching performance from Bill Wright in turning back Oakland, 4-0.

LONDON—Sammy McCarthy, 127½, England, stopped Enrico Micale, 127, Italy (5).

QUEEN'S COLT WITHDRAWN

LONDON (AP)—Landau Queen Elizabeth's three-year-old colt, was withdrawn Tuesday from the classic St. Leger at Doncaster, Sept. 11.

Bowlers Still in Quandary

By RON COULTER

Gibson's Bowladrome may not cater to a Commercial Tenpin League this season.

At a poorly attended league meeting Tuesday night at the alleys, it was learned that the former 20-team league would not be able to operate in full on Wednesday nights this season.

League secretary Ian McKeachie said that it would be virtually impossible for the league to roll Wednesday nights for various reasons, one being that several bowlers are also interested in attending Western Hockey League games.

McKeachie asked that Monday nights be made available to the league.

Alley owner John Achtem and manager Eric Smith reported that it was impossible to move the 20-team league to Monday night, thereby changing another league to Wednesday.

Smith told The Times that the league was booked solid throughout the week and that no 20 alleys would be available at one time.

Possibility of the league splitting into two sections and rolling at separate times was discussed.

Monday or Tuesday appear to be the only suitable nights for the league to roll.

Only other means to survive if alleys are not forthcoming at Gibson's, it was suggested, would be to switching bowling sites.

However, if the league changes alleys it would probably have to be split into two sections. No other alley in Victoria can accommodate 20 teams at one time.

No decision was reached at the meeting and it was decided to leave it up to league officials to investigate the situation further.

Another league meeting has been called for Monday night at the alleys at 8.

Series Tied

Lands defeated Remnants, 11-7, Tuesday night at Central Park to even a best-of-seven final series for the provincial government employees' softball championship at one game each.

Third game is set for Friday night at 6:30 at Central Park.

Lions' Troubles Grow; 'Peg, Court Case Due

VANCOUVER, B.C. (BUP)—The British Columbia Lions' troubles grew today while polishing offensive plays in preparation for their opening Western Conference game Saturday against the Winnipeg Blue Bombers.

The Lions, already recognized as having a powerful line anchored by tackles Arnie Weinmeister and Chuck Quilter, may be reinforced by Doug Hepburn, the world champion heavy-weight weightlifter. Hepburn, a 300-pound giant, has been working out with the Lions, although he has never before played football.

"Look at Edmonton's record," he said, "figures don't lie." He had been criticized that the single wing formation lacked the effectiveness which the T-formation and others are noted for.

The Lions, who failed to score a point in two exhibition games against Big Four teams, were engaged in a legal battle over the status of lineman Laurie Niemi, and appeared to be on the verge of a similar contest over halfback Al Pollard.

An injunction was slapped on Niemi, former Washington Redskins tackle, last week to prevent him from even working out with Annis Stukus' Lions.

The team made an application in the British Columbia Supreme Court Wednesday to have the injunction set aside.

Meanwhile, Pollard appeared impressive in early workouts, but his status was clouded by threats of the Philadelphia Eagles who said they would take legal action to keep him in harness.

The Eagles claimed Pollard was still their property by virtue of the reserve clause in most National Football League contracts.

Stukus, the only Canadian-born coach in either the WIFU or the Big Four, defended himself against criticism of his choice of the single wing formation. The formation, which features an unbalanced line with most offensive plays involving left end runs, was used by Stukus when he coached the Edmonton Eskimos and set an all-time WIFU record for yards gained in passing in 1950, and for yards gained rushing in 1951.

Stukus said his job depends on winning football games.

Toronto Interested In Red's Franchise

TORONTO (CP)—A Toronto syndicate has been negotiating for the Cincinnati Reds' baseball franchise "for some time," Vince Reid, chairman of the civic stadium committee, said Tuesday.

"If a major league size stadium is available, this group of Toronto businessmen can have the franchise within hours," he told the harbor commission, owners of Maple Leaf stadium.

The Toronto group is now negotiating to place a farm team in Rochester, N.Y. Managing director Frank Selke said he was enthusiastic about a new arena now under construction in Rochester and hoped to have a team, possibly of American League status, in action there when the building is completed.

MATCH ABANDONED

SUNDERLAND (Reuters)—The Canadian touring cricket team's two-day match against Durham was abandoned here today. Rain washed out play Tuesday and the ground was still unfit today.

NORTHERN PACIFIC

VISTA-DOMES

let you see the scenery

ALL AROUND YOU!

The sky's the limit when you're sightseeing from the Vista-Dome North Coast Limited. You travel Northern Pacific's Scenic Route Across America. You see it all as you've never seen it before—on both sides of the train!

Vista-Domes are rolling now between the North Pacific Coast and Chicago. When all new cars are in service late this fall, there'll be two coach domes and two sleeper domes—a total of four Vista-Domes on each North Coast Limited!

For information, Coach or Pullman reservations, call or write

Water Board Scheme In Greater Nanaimo 'Forgot' Four Acres

Small Tract at South End of City Will Be Invited to Join Five-District Body

NANAIMO—An area of four acres on the southern outskirts of the city, containing about 20 homes, has been found to be in a "no man's land" as far as water service is concerned.

Harry Tuck Will Retire As Fair Head

NANAIMO — Harry Tuck, chairman of Nanaimo Fall Fair for 14 years, announced today he would resign as soon as the forthcoming fair is over.

"I have been under a doctor's care, and I think I should take at least a year off," he said.

Mr. Tuck revived the fair in 1940 after it had been dormant for many years.

"With Beban Park property available, we should be able to develop our fair into a little PNE," he said at a recent executive meeting. "We should, and can, become the largest fair on the Island."

Mayor George Muir is expected to open the show Sept. 16. New section for caged birds has been added this year, but automobile exhibits will be fewer since the fair will be too early for 1955 models.

Horsemen were happy to note that Beban Park will be available. They expect Victoria and Colwood riders to stage a horse show.

When the council shifted inspections from the fire chief to other municipal employees, firemen made known their opposition to the move and there were threats that they would resign en masse.

It is felt now that a compromise will be reached at the forthcoming meeting.

The scholarship will be awarded annually.

CAMPBELL RIVER—Mrs. H. N. Vogt, local PTA president, has announced that the first winner of the new instituted PTA scholarship is, Laurelle Law, who was graduated from high school this year with an average of 72 per cent.

A member of the student council and editor of the school annual, she will enter UBC in the fall and hopes to become a teacher.

The scholarship will be awarded annually.

The installation will regulate voltage and permit power lines to carry more energy.

According to E. J. Soules, foreman in charge of the 20 men on the job, structural steel and concrete blocks for the building will begin rising in about two weeks.

The unit will be served by two, 280,000-volt lines from Campbell River, and in turn will serve two lines continuing south to Victoria, and one line to the Harmac pulp mill.

Voltage will be stepped down to 60,000 volts locally for domestic consumption in Parksville, Nanaimo, Ladysmith, and Duncan.

Clean-shaven members were marked in the "black book" August 1 for a cent-a-day fine.

With crews presently double-shifting in the area, hunters will not be allowed on the road until Saturday morning.

Mr. McLean said that he expected the shift to be finished about three weeks after the season opens, in which case hunters could have access to the property on Friday nights.

Mr. McLean cited several instances of damage to company property and equipment by hunters.

ARCHITECT'S MODEL of the new Central Junior High city school that is being rushed to completion so that it will be ready for the new term September 7, will be on display at this year's Pacific National Exhibition at Vancouver. Built by Wade, Stockhill

and Armour, the model will be included as part of a provincial government exhibit dealing with education. Model is built to scale, one-eighth of an inch representing one foot. (Times Photo.)

Nursing Home Seen Ready By December 1

Winslow Relates History of VNH

The new 104-bed Victoria Nursing Home should be in operation by Dec. 1, F. E. Winslow, president of the VNH, told members of the Victoria North Kiwanis Tuesday night.

Guest speaker at the club's weekly dinner, Mr. Winslow discussed briefly the history of the nursing home and its prospects for the future.

He outlined the work being done and stressed the need of convalescent type hospitals in the Victoria area.

"The cost of construction is borne jointly by the dominion, provincial and civic governments," he said.

"For the building of the new home, the city has set aside a maximum of \$150,000 and the dominion is paying \$1,500 per bed. The province is contributing proportionately.

"The cost of operating," he stated, "has risen from \$75 per person in 1944 to \$115 per person today. By frugal but efficient operation today, we are hoping that costs will remain the same in the new home.

Funds for furnishing the rooms, which amount to about \$400 per bed and which the nursing home must pay, are coming in steadily.

The Victoria Nursing Home Auxiliary is doing its share.

"Already," Mr. Winslow told Kiwanians, "the auxiliary has raised some \$10,000 of the \$50,000 needed. Citizens and clubs are equipping beds. In the last week, six donations of \$400 each were received.

"But we still have a long way to go," he said.

"The new hospital—and it is classed as a hospital—will fill a great need here. Each of the major hospitals in the city is hoping to release about 15 chronically-ill patients to our care. An official at Mount St. Mary's recently expressed the wish that the new home was a 200-bed instead of a 104-bed institution because Mount St. Mary's has to turn away an average of five applicants per day."

BCHIS Survey Shows Small Hospitals Costly

A definite trend away from construction of small community hospitals is being established throughout the North American continent.

This was one of the major points in a comprehensive survey on hospital needs of the Fraser Valley area released Monday by a research team of B.C. Hospital Insurance Service.

Throughout the report there are warnings against construction of small-sized institutions in communities within moderate distance of centralized urban hospitals.

"A small community hospital can only provide a limited range of services," and residents of many communities can derive considerably more benefit if they support better equipped and staffed hospitals in large population centres, according to the report.

Reasons for the trend are largely financial. Small hospitals can be operated only at unreasonable cost if they attempt to supply the services available at the big institutions.

A danger of providing small hospitals and ignoring the pressing need for chronic and convalescent beds is that the average length of stay in the acute beds climbs as much as 20 per cent.

Group Will Operate Free Food Stall

Operation of Victoria's famous free food stall at the public market will be taken over by a six-member group under direction of Mrs. Sidney Penny, 664 Dallas, when founder-director Mrs. Barbara Green leaves the city September 1 to live in Vancouver.

The group needs a volunteer dispatcher, said Mrs. Green today, to take care of food donated between stall days. This food must be assigned to volunteers who will preserve it for needy individuals.

Work is particularly heavy during August and September, Mrs. Green said, due to surpluses of garden fruit and vegetables.

CONTROLS POLICE
The British home office has control of the London police force and oversight of the police forces in the counties and municipal boroughs.

Machine-Man Teams Aid Liquor Buying

Commission Customer Will Deal Only With 1 LCB Clerk Instead of 3 Under New System

Liquor Commissioner Col. D. McGugan said today he expects a new system of vending liquor in LCB outlets to go into effect next month in Victoria.

Men will be exchanged for machines, and buyers of liquor will deal with only one LCB clerk, instead of three as at present.

Cash registers will be installed in the Victoria liquor stores, and a machine operator and a wrapper will work as a team. Customers will give their order and their money to the operator, and while he is ringing up the sale and giving change, the wrapper will get down the purchase and wrap it.

At present, one LCB employee writes down the order; the customer moves to another counter to make payment, and then to a third to get the purchase.

The cash registers are one in a series of recent changes in government liquor stores.

In an apparent effort to satisfy the public demand, LCB stores now stock half-bottles of imported Scotch whiskey and imported wines. These "mick-eyes" have not been stocked since early in the Second World War.

In addition, two Vancouver stores are now staying open until 2 a.m., and other stores in major centres soon may adopt these hours.

The most recent change was the reduction of prices Monday on some 60 varieties of liquor. Prices were cut from five cents to 35 cents.

Meanwhile, the job of implementing B.C.'s new liquor act is continuing. Today, all organized territory in the province has been declared licensing areas. Only unorganized districts remain to be designated.

TCP
gives up to **15% more power**
within 400 miles

Shell-discovered additive now blended into both Shell Gasolines releases power formerly held captive by lead and carbon deposits.
TCP* is the greatest gasoline development in 31 years.

Acts so fast you'll think your engine's had a tune-up before you've finished your second tankful—within 400 miles

You can be almost certain that you are not getting the full power your car's engine was designed to deliver.

That's because lead and carbon deposits build up fast in the combustion chambers and on spark plugs. Power you should be getting is held captive in your engine.

No exceptions.

This happens to all cars. In combustion chambers these deposits get red hot and pre-fire the fuel before the piston reaches its proper firing position. Power fights itself as a result of pre-ignition.

Power is also wasted when these deposits short-circuit spark plugs and cause misfiring. This misfiring and pre-ignition are the major cause of power loss in your car.

TCP Unleashes Captive Power

This Shell-discovered additive "fireproofs" deposits in combustion chambers to stop pre-ignition. On spark plugs it makes the deposits non-conductive and prevents spark plug short-circuiting.

Up to 15% more engine power is released by both Shell and Shell Premium Gasolines with TCP.

Less Than Two Tankfuls

So rapid is the action of Shell Gasolines with TCP that you'll feel your engine has had a tune-up before you've finished the second tankful.

TCP is a Shell-discovered additive carefully blended into both Shell Gasolines. There's nothing like it for keeping harmless the deposits that constantly build up in combustion chambers and on spark plugs. To keep your engine tuned as only TCP additive can do it, buy a Shell Gasoline with TCP every time you fill your tank. Remember, the only place you can get it is at Shell stations.

*Shell's Trademark for this unique gasoline additive developed by Shell Research. Patent applied for.

for service all across Canada by Canadian National

Canadian National's modern-as-tomorrow new equipment is bringing you travel with a flair, a new kind of "Travel Living". As more and more of these new cars join Canadian National trains all across Canada this summer, you'll discover the added comfort and convenience that is yours—with the widest choice of day-and-night accommodations for every budget.

It costs less than you might think to travel on the C.N.R. For example look at these low coach fares between Vancouver and Montreal: One way \$78.56. Round trip \$127.90. Proportionately low fares apply for tourist and other types of sleeping car travel. Ask about substantial savings offered by New Family Fares to Winnipeg, Eastern Canada and Eastern U.S.A.

For reservations and information, see, write or phone your local Canadian National Passenger Agent.

Restfulness and comfort are yours in spacious new drawing rooms. In each you'll find two lower beds and one upper, with two folding arm chairs. It's a bedroom by night, a living room by day!

NEW SUIT FOR SIR WINSTON DELIVERED TO WAX MUSEUM

LONDON (AP)—A new suit for Prime Minister Churchill was delivered today—not to his residence of No. 10 Downing Street but to a big house full of dummies in Baker Street.

The garment, a snappy blue serge number, was made precisely to Churchill's dimensions, and it was slipped on the new wax model of the prime minister which has been unveiled at Madame Tussaud's wax works museum.

Churchill took his place among the waxen models of famous persons in 1928. Since then he has been melted down and recast five times to keep in step with changes in his physical characteristics.

New U.S. Bill Strips Reds Of All Rights

Communists Must Now Register
Or Face Fines, Jail Terms

DENVER (UP)—President Eisenhower Tuesday signed the bill theoretically outlawing the Communist Party, saying that the American people were determined to eliminate organizations purporting to be political parties but actually dedicated to overthrow of the government by violence.

The bill strips the Communist Party and its "front" subsidiaries of all legal rights and privileges.

The new law also forces Communists to register with the federal government or face heavy fines or jail terms. The measure, one of a series of administration-backed Communist control bills, also places new restrictions on Red-infiltrated labor unions.

In New York, a Communist Party spokesman termed the new law "profoundly unconstitutional." He said the party would "continue to function as a legal political party" while joining "with other groups to seek the bill's invalidation."

Mr. Eisenhower issued no formal statement when he signed the bill, but spoke informally to reporters on the front steps of the Lowry Air Force Base Administration Building.

"I have just signed a bill," the President said, "which is designed to place in the hands of our law-enforcement agencies, particularly the attorney general and the FBI, better weapons for combating the Communist menace in this country. This is one of a series of bills that are designed in this general purpose."

"The American people are determined to eliminate from their midst organizations which, purporting to be political parties in the accepted sense of that term, are actually conspiracies dedicated to the destruction of our form of government by violence and force."

OBJECTION REMOVED

Mr. Eisenhower originally felt strongly against a preliminary plan of the Senate to outlaw the party by making membership a federal crime. His attitude changed, however, when the bill was altered to remove this provision, which the Justice Department felt might drive Communists underground and make the detection of subversives more difficult.

Later, the President issued a formal statement disclosing that he will sign three additional Communist-control measures, including the bill to take away citizenship from persons advocating overthrow of the government by violence, the new sabotage law and the so-called "Alger Hiss" bill, which prevents the payment of federal pensions to persons convicted under specific federal statutes.

"We have made great progress in the past year and a half in prosecuting the leadership of the Communist conspiracy," Mr. Eisenhower said. "I am proud that in this battle against the subversive elements in this country we have been able to preserve the rights of the accused in accordance with our traditions and the Bill of Rights."

TLC Continues Ban On B.C. Fishermen

REGINA (CP)—The Red-led union, of trying to muscle in on fishermen's union of British Columbia was denied re-admission to the Trades and Labor Congress of Canada Tuesday but its members were told they could get in by shaking off Communist influence.

Leaders of the 6,000-member union, suspended from the congress a year ago, failed in an appeal to the TLC annual convention from the suspension imposed by the congress executive.

Effect of the convention action is to open the way for the break-up of the fishermen's union through the congress taking over — by direct charters from the TLC—those divisions of the union that want to get back into the central body.

A recommendation from the TLC officers' reports committee, on which the convention acted, extended such an invitation.

"We would welcome either the whole organization or any division of it willing to abide by the constitution of the TLC," said the recommendation. The constitution has a clause barring unions officered by Communist sympathizers.

The convention action was the latest in a long series of congress moves against Red influence in unions during the last four years. Until its suspension last August, the fish union had been the only major survivor among Red-tinted groups in the TLC.

SEAMEN ELECTED FIRST

The most important Red union in the TLC, the Canadian Seamen's Union, was thrown out earlier and since then has almost disintegrated. The right-wing Seafarers' International Union took over from it.

The SIU was accused Tuesday by Homer Stevens, general secretary of the fishermen's

JAYNE'S P-W tablets

KILL PIN-WORMS

(You may have them and not know it)

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... tiny parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily. Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermicide... the small, easy-to-swallow tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

20c Payoff-Set Pinball Charge Going

Judgment was reserved on sentence due Benjamin Hall, 235 Cook Street, after he pleaded guilty in city police court today to keeping a common gaming house.

Magistrate A. I. Thomas heard city police testify that a plain clothes officer had been paid in cash for free games won on a nickel pinball machine.

Three pinball machines were confiscated and carted away in a city police patrol wagon from City Hall Newsstand at 1509 Douglas Street, Aug. 17.

An officer said in the witness stand that about 90 cents had been fed into the game and as the officer was leaving he asked for cash for the free games still owing him. He said he received two dimes.

Magistrate Thomas released Hall without bail. He will reappear for sentence Friday and the court will also decide the disposition of the three slot-machine games at the same time.

11-Year-Old, \$2.98 Camera, Win Flo Chadwick Contest

THIS PHOTO of Flo Chadwick in training, taken by 11-year-old Julie Clark, 2700 Arbutus, is the winner in the Victoria Photo Supply-Bapco-Times Flo Chadwick snapshot contest. Julie is daughter of retired B.C. Police assistant commissioner C. "Nobby" Clark, himself a camera fan. Photo, taken with \$2.98 Baby Brownie, wins \$28 Duaflex. Other winners were: Mrs. Kathleen Edwards, 1980 Foul Bay, and Arlene Penhallurick, 362 Roseberry, Winnipeg. Judges were Fred Tanner and Syd Love, Victoria Photo Supply, and Ted Hill-Tout, president Victoria Camera Club. (Photo of Julie, at right, by Times' photographer Irving Strickland.)

Julie Clark and prize-winning camera.

Government Kills Air Fleet Plan

Works, Forest Departments Can't Agree

By TOM GOULD
Times' Legislative Reporter

Plans for formation of a provincial government air service—duplicating Saskatchewan and Ontario systems—have been dropped.

First proposed about a year ago, the plan would have put all government planes under one authority, available to any government departments when needed.

At present, the public works department owns and operates two planes, forestry three, and many are rented. The plan, proposed by Works Minister Philip Gagliardi's department, would be to increase the number of planes, centralize control, and charge the various governmental departments making use of the aircraft.

If a power commission engineer, or a welfare department official required a plane under the proposed system, he would call the air service office, request a flight, and his office would be charged.

However, the plan is now dead, at least for the present. No official reason has been given, but there are reports the two departments involved could not agree on who would be in command of the provincial air armada.

It was also planned to make full use of the planes in emergencies and to incorporate some form of air ambulance in its operation.

CITY RESIDENTS FEEL SLIGHT EARTH TREMOR

A slight earthquake was recorded in Victoria about 7.30 this morning, according to an astronomer at the Dominion Astrophysical Observatory, Saanichton.

The exact centre of the tremor had not yet been pinpointed, he said, but it was definitely felt by a number of residents. The tremor was of short duration and passed almost unnoticed.

Clarification Awaited On Gas Inspection Act

An act proclaimed by the provincial cabinet Aug. 11 put the city of Victoria and other B.C. municipalities in the gas inspection business. But city manager Cecil Wyatt is still trying to find out just how far the city is required to go in providing inspection services.

For the time being, provisional arrangements have been made with Philip Ballam, city plumbing inspector, in charge. Mr. Wyatt said today that until he had further information relating to administration of the new arrangements, he could not determine whether additional inspectors would have to be engaged by the city or not.

He expects some clarification from the provincial government representatives in Vancouver next week.

The act calls for annual inspection of all gas fixtures by a licensed inspector and is aimed at cutting down the number of accidental gasings. It is estimated that there are some 7,000 gas appliances in use in Victoria.

Propane Here Next Month; Home Appliances Altered

Noxious smoke and fumes from the local gas works soon will be a thing of the past.

Change-over from manufactured gas to liquid petroleum air gas in B.C. Electric's Victoria gas system is expected to be completed on schedule next month, a spokesman said today.

Fifty to 60 additional workers have been engaged since spring in making adjustments to some 30,000 Greater Victoria gas appliances, enabling use of the propane-type fuel.

Conversion is being made at "considerable" cost to the company. Adjustments to jets on

appliances are made without charge to consumers.

Recent provincial legislation regarding domestic gas appliances has not been put into effect by municipal authorities, but the BCE's program is thought to meet all requirements of the new law.

Company officials hope that conversion will hold existing gas rates to their present level.

Only change at local gas works will be installation of vaporizing equipment to convert the liquid petroleum gas, which is brought under high pressure in railway tank cars, into an air-gas mixture before it enters city gas mains.

Three Convicted of Theft From Victoria Retailers

Three city men appeared before Magistrate A. I. Thomas today on charges of theft from city stores. One pleaded guilty and two were convicted following trials.

David Thomas, 33, 1240 Richardson, was sentenced to three months at hard labor. Found in possession of two sport shirts and a quantity of groceries, he said he had been given the shirts and had bought the groceries from a companion.

The companion, Drummond Laing, 48, Lincoln Hotel, pleaded guilty but alleged that Thomas had committed the actual theft.

Laing testified against Thomas and was given a six-month suspended sentence. He had no previous convictions. It was reported in court that Thomas had been sentenced three times before on similar offenses.

A Hudson's Bay Company employee identified the garments and price tags which had been found under a table used by the two accused in a local beer parlor.

Retail value of the shirts was given as \$23.35. The other items presented in evidence were four tins of oysters, a jar of chicken and a package of marshmallows.

Joseph E. Huss, 26, Kings Hotel, was found guilty of theft of a gold tsuba (Japanese sword guard) from an antique shop here but was remanded for sentence to Friday. An antique dealer at 946 Fort testified that Huss had visited his store to see an old coin catalogue. The sword guard was noticed missing later.

Another antique dealer said Huss had later brought the sword guard to him and had been offered \$350 for it.

Huss said he had bought it for a dollar, from an unidentified man on lower Fisgard Street but he was not able to produce the man in court.

ASK THE TIMES

Q.—Since a reader last week told the Ask The Times column that he had worked on the construction of St. Andrew's Cathedral in 1890 I have been told of another man who worked there, but he died many years ago. Have you learned of any but your correspondent who is still living?—F.G.M.

A.—No one now resident in Victoria has informed this column that he, like correspondent H.V.J., was present at the building of St. Andrew's. John McLellan, former chief of police, a native of Victoria, told The Times his father, the late F. B. McLellan, who came to Victoria in those days, took part in the construction work.

Q.—What was the origin of the name of the city of Kamloops?—H.W.A.

A.—The Cyclopedia of Canada records that in 1812, "Alexander Ross of the Pacific Fur Company built near the Indian village a trading post to which he gave the Indian name 'Kamloops'." (meaning "the meeting of the waters"), which has since been corrupted into Kamloops. "The meeting of the waters is the confluence of the North and South Thompson Rivers. The place was incorporated as a city in 1893.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to Ask The Times Editor, 600-2 News and answers will be published daily.

All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve conundrums.

Victoria Daily Times

VICTORIA, B.C., WEDNESDAY, AUGUST 25, 1954 15

Right-Hand Passing On Lawyers' Agenda

Deputy attorney-general H. Alan Maclean today is attending sessions of the uniformity of legislation commission in Winnipeg, during which an answer may be found to the problem of motorists passing on the right-hand side at stop signs.

The commission, charged with bringing some form of uniformity to the traffic, securities, insurance and other laws of the 10 provinces, is scheduled to study the right-hand passing issue during its meeting.

At the spring session of the B.C. legislature, Attorney-General Robert Bonner rejected a bill to legalize such passing submitted by Victoria City Liberal MLA George Gregory.

He said the commission was handling the issue, and that B.C. would not take action until the commission arrived at a decision.

Following the uniformity commission sessions, Mr. Maclean will attend the Canadian Bar Association's 36th annual convention, also to be held in the Manitoba capital.

Attorney-General Bonner will attend the bar association conference, as will J. G. Rutten, head of the Victoria Bar Association.

The convention will feature an address by British Home Secretary Sir David Maxwell Fyfe. Other guest speakers include Rene Mondou, president of the Paris bar, and William Jameson, president of the American Bar Association.

Over 1,200 Canadian lawyers are expected to attend the convention. Agenda for the business sessions include discussions on civil and criminal justice, civil liberties, industrial relations, maritime law, and taxation.

THEY'LL WATCH FLO GO

When Florence Chadwick hits the water in her Lake Ontario swim a little after midnight on Labor Day, two of her favorite Victoria supporters will be cheering her from the official boat.

Mr. and Mrs. J. Carl Pendray Tuesday night accepted the long-distance telephone invitation extended by the swimmer to come to Toronto for the event. Mr. Pendray, head of Bapco, co-sponsors with the Victoria Daily Times of the unsuccessful Juan de Fuca attempt earlier this month, plans to leave Victoria with his wife September 1 and be in the Ontario capital a day or two before the Ontario swim.

In her phone conversation Miss Chadwick sounded cheerful and confident. The water temperature seemed satisfactory to her and she was optimistic over her chances of making the marathon attempt a success.

She repeated her intention of returning to Victoria next year for a three-months' training

grind leading up to another Strait attempt in which she hopes to profit from the errors made in the first attempt.

The world's leading woman distance swimmer is still talking of the reception she was given here and the hospitality of Victoria's citizens.

J. CARL PENDRAY

Tourist-Eye View Gives Critical Picture of Victoria

By TONY DICKASON

While most Victorians like to think of the city as a sort of tourists' shrine, there are still visitors here who have the unmitigated gall to criticize facilities offered by hotels, motels, restaurants and other media aimed at parting the visitor from his dollar as nicely as possible.

There are quite a few such grippers; they register their complaints in a book kept specifically for this purpose in the Victoria and Vancouver Island Publicity Bureau on Government Street.

No anonymous complaints are accepted. All are put in writing and signed.

One male visitor wrote wrathfully about a hotel: "The morning bath water is cooler than water in a restaurant... face water not hot enough for shaving... one small light in the

room's centre not suitable for reading... no closet, no telephone... beds clean but hard and rates above those advertised."

A California man said of a motel: "Sanitary facilities are extremely crude and very dirty. Grounds are poorly laid out and completely bare. The price is above the going rate for good facilities."

A strong complaint was registered in another instance against an auto court with "holes in the sheets and pillows... filthy floors and carpets."

And on another motel "... broken bed springs. The manager said no one had ever complained before. We had to put a quilt under the mattress to make it more comfortable."

A dine and dance establishment was termed "noisy and third rate, with bottles under the tables... a truck driver's

paradise, with the meal practically thrown at us. After one of the worst meals ever eaten we suffered battle fatigue."

After children left damp footprints on the doorstep after swimming in the sea, another motel operator told an Edmonton couple to "get back to filthy Alberta where you came from."

Another suggestion was that motels which do not accept children should say so by a sign posted where it can be seen.

Comments on cafes and dining establishments... "overpriced for the quality of food... greasy... we ordered sole but it was definitely not sole... we had to complete our meal elsewhere."

A man and wife who had "visited 47 capitals in the U.S., Mexico and Cuba" were turned away when they requested admission to the parliament buildings. The complainant didn't say what time of the day he asked admission, but they were perturbed anyway. "It is the first time we have ever been treated like this."

Another California man wrote: "Suggest you make a marine drive."

But not all transcriptions in the "complaints" book are derogatory. One Vancouver man wrote he had spent 41 annual vacations here, and a gentleman from Lancashire wrote succinctly: "everything is very nice."

Visitors here, he suggested, don't come to be "sophisticated."

SHOPPING GUIDE

Find Bargains Galore
At Mid-August Sales

BY PENNY SAVER

After just one week away from the shops, I've noticed a difference. I've tried to keep away from stores as much as possible while on holiday, so that today, when I once more began to save your pennies for you, I'd have a clear and fresh outlook.

Well, in just one week, scores of sales have sprung up. My golly, I never dreamed so many changes could take place in such a short time. Great "sale" and "half-price" signs greet a body wherever she turns. There's no getting away from these mid-August sales.

But then, who wants to get away from them? This is the time of year we can save by spending... it's the truth!

Take, for example, the quilted brunch coats and housecoats I saw selling for just \$3. Why, you could never hope to get one at that price under ordinary circumstances.

Let me tell you about them. You know that a brunch coat is a three-quarter-length robe that serves both for lounging and doing household chores. If you intend to use it for the latter, you'd be wise to buy one that is washable... and the ones I'm telling about now are just that!

You see, they are made of cotton, of double, in fact from the feel of it, perhaps even triple thickness. Outside are gay stripes and inside is a plain color to match one of the stripes. My favorite combination was one with the predominating stripe of chartruese and with a chartruese lining. In fact, I'm tempted to buy it. These brunch coats are full, unbelied, and have either Mandarin or Peter Pan collars.

The housecoats are also quilted cotton, but are full-length and fitted. Same price, though!

Another sale item to catch the spenders' eye is the sealy metallic belt. Remember how expensive they were when they first came out?

You know the ones I mean, of course. Elastic-backed belts of tiny gold or silver metal scales. They are so attractive for evening wear and smart, too for daytime. Well, I found some today at just \$2, in both the gold and silver! Amazing, isn't it?

You have your choice of a plain metal clasp, one trimmed with rhinestones or one of leather.

AS WE LIVE

Try to Cure Grandma
Of Using Bad Language

By ELIZABETH B. HURLOCK, PhD

There are just about as many varieties of mother-in-law troubles as there are mothers-in-law. Here is an unusual type, as described by a young wife who says:

(Q) "In four and a half years of marriage, I've had nothing but mother-in-law troubles. My mother-in-law is a bad influence for my son, two and a half years old, as she uses profane language and he has already started to repeat some of the words he hears her use. I think this is going to be more and more of a problem as he grows older. What can I do about it?"

(A) Ideally, the solution to your problem would be to get your mother-in-law out of your home. That suggestion, I am afraid, is impractical, as you doubtless have her for financial or other reasons.

Have you asked her to be careful of the words she uses when she is in your son's presence? She may have become so accustomed to using profane language that she is not actually aware of what she is saying.

If she refuses to co-operate with you in this matter, you have no alternative but to tell your son not to use some of the words he hears his grandmother use. You do not have to emphasize this—as you can merely say that such words are not being used today.

It is very unfortunate for a child who is just learning to talk to be subjected to such an unfavorable model of speech. As time goes on, he will recognize that the words his grandmother uses are frowned on by other people.

As a special service to our readers, Dr. Hurlock has written a 64-page booklet, "You and Your Problems." For your copy send 15c in coin with a self-addressed stamped envelope to this newspaper.

Canadian Women Perfume
Shy? Maker to Find Out

REGINA (CP) — Canadian women may be perfume-shy, and Roland Haumont, Canadian representative of a famous French manufacturer, would like to find out why.

Mr. Haumont is touring Canadian cities to find an answer to the situation. But he has a few ideas of his own. For one thing, he admits high prices may be a factor.

High prices cannot be remedied easily, he says. Manufacture of perfumes is a costly

process, involving skilled laboratory technicians, purchases of costly formulas and high tariffs and government taxes.

Another factor is the elaborate packaging. Experience has shown that purchasers insist on the trimmings, he said.

Institute to Meet

The Esquimalt Women's Institute will hold a business meeting in the Esquimalt Community Club hall, on Thursday, Sept. 2, commencing at 2 p.m.

WHY GROW OLD?

By JOSEPHINE LOWMAN

Are You Unusually Tall?
Then Make the Most of It

It is definitely noticeable that many people are affected by their height. Often very short men speak in a very loud voice and many tall women slump in an unconscious effort to appear shorter. I have had pupils who had really developed complexes because they were above average in height.

This is such a great mistake! In the first place, many of the most glamorous women are tall. Models and chorus girls are 5 feet 8 inches and taller. Tall women can wear clothes in an unusually stunning manner. But you lose all of the advantages of your height if you do not carry yourself beautifully.

One reason women dislike being above average in height is because they feel that most men like to be much taller than their dates. This is true in many instances, but men with real personality do not make much of this. Also, today if you wish to be considerate in this matter or feel self-conscious yourself if you are taller than your date, you can wear low-heeled shoes. There are ex-

tremely attractive ones for every occasion. Tall women sometimes make the mistake of following, to an extreme degree, the rules given for making one look shorter. For instance, short skirts are supposed to do this while longer skirt lengths make one appear

taller. However, if the tall woman wears very short skirts she seems all legs and calls attention to her height and also looks awkward. The rule of "midway on the calf" is the most graceful one for women of every height.

Belts, especially wide ones, cut height. Contrasting colors in blouses and skirts or tops and bottoms of dresses do the same.

Capitalize on your height with lovely posture and, stunning clothes and wear low heels if you wish.

If you would like to have my leaflet "Planning Clothes to Suit Figure and Personality," send a stamped, self-addressed envelope with your request for leaflet No. 54 to Josephine Lowman in care of this newspaper.

TODAY'S RECIPE

CONSOMME CHICKEN
GARDEN SALAD

One tablespoon (1 envelope) unflavored gelatin, ½ cup water, 1 can (1½ cups) condensed consommé, 1 to 2 tablespoons lemon juice, 1 cup finely diced chicken, 1 large green pepper, cut in very thin slices, ¼ cup thinly sliced pimiento.

Soften gelatin in cold water, set container of gelatin in a pan of boiling water until gelatin is dissolved. Combine gelatin, consommé and lemon juice; cool until mixture begins to thicken. Fold in remaining ingredients. Rinse a 4-cup mold in this matter or feel self-conscious yourself if you are taller than your date, you can wear low-heeled shoes. There are ex-

OF PERSONAL INTEREST

Gifts in Happiness Ship

Honoring Miss Pearl Tippet, RN, an August bride-elect, Miss Joyce Taylor entertained at a miscellaneous shower at her home at 860 Maddison Street. Gifts were held in a decorated "ship of happiness," the HMCS Tippet, in honor of the groom, who is in the navy. A corsage of red carnations and white gypsophila was presented to Miss Tippet and one of pink carnations to her mother. Games were played and a solo was given by Miss W. Cox. Invited guests included Mrs. G. D. Tippet, Mrs. David Taylor, Mrs. Ed White, Mrs. D. Schroyen, and Misses Wendy Cox, Betty Creech, Doris Thomas, Dianne Tippet and Marie Tippet.

Party Honors Niece

Mrs. R. Glenn and Mrs. M. Irvine, 2803 Cedar Hill Road, were co-hostesses at a shower for their niece, Miss Gloria Salter. Corsages were presented to the guest of honor and her mother, Mrs. R. W. Salter, and to the mother of the groom-elect, Mrs. E. Orr. Guests were Mrs. L. Cooper, Mrs. D. Bacon, Mrs. W. Edmonds, Mrs. J. Glenn, Mrs. J. Hamm, Mrs. G. Orr, Mrs. A. Thommasen, Mrs. R. Rubins, Mrs. Murchant, Mrs. Kennedy, and the Misses L. Irvine, P. Salter, B. Wilms, S. MacKie and H. Klemens.

Married in Nelson

In St. Saviour's Pro-Cathedral, Nelson, B.C., on Monday, August 23, at 3 p.m., Rt. Rev. F. P. Clark, Bishop of Kootenay, officiated at the wedding of Miss K. Ethel Gray, formerly of Victoria and now of Nelson, and Dr. L. E. Borden, BA, MD, CM, LRCP and S (Edin). Mrs. Borden has many friends in Victoria where, until a few months ago, she was active in the Local Council of Women and the Victoria Business and Professional Women's Club. Her sister, Miss Edna Gray, Winnipeg, was in Nelson for the wedding.

Our hair, as the rest of our bodies, changes with the seasons. As the weather gets warmer, hair becomes thicker. Therefore you should have your hair thinned out more frequently than during the remainder of the year.

Team Honors Thelma Brewer

Members of Victoria Girls' Drill Team honored bride-elect Miss Thelma Brewer with a shower. Joint hostesses were Mrs. Eileen Goegan, Miss Audrey McCormick and Miss Lucille McBurney. The party was held at the home of Mrs. Goegan, 850 Seymour Street. Gifts were concealed in a miniature garage in compliment to the groom-elect, Mr. Leo Kozak, a mechanic. Gladioli and rosebuds formed Miss Brewer's corsage and pink carnations and feather formed corsages presented to her mother, Mrs. T. Brewer, and mother of the groom-elect, Mrs. A. Rutich. Guests were Mrs. J. McCormick, Mrs. A. McMillan, Mrs. M. Okell, Mrs. E. Dorohoy, Mrs. A. McLeary, Misses Florence Scrimshaw, Eleanor Wickett, Val Speed, Juanita Campbell, Norma Penner, Joan Hutchinson, Muriel Jennings, Norah Coleman, Tess Stewart, Lorna Forsyth, Gwen Mason, Barbara Cross, Betty Dolman, Jean Provan, Amy Koller, Kay Morrish, Lorraine Baird, Anita Baird.

Sidney Bride-Elect Honored

Honoring Miss Nancy Shillitto, a September bride-elect, Miss Linda Taylor was hostess at a miscellaneous shower at her home on Queens Avenue, Sidney, recently. Gifts were presented in a box designed as an airplane and presented to the honor guest with a corsage of roses and sweet peas. Her mother, Mrs. R. Shillitto, also received a corsage. Games were played and refreshments served. Other invited guests were Mrs. N. Shillitto, Mrs. F. Shillitto, Mrs. G. Menelaws, Mrs. F. Hunt, Mrs. D. Burgess, Mrs. E. Taylor, Misses Ethel and Elsie Nichols, Muriel McKay, Shirley Bath, Bessie Wilkinson, Elenore Coward, Patricia Gray, Gail Smith, Thelma John, Marie Cooper, Nonie Echert, Coral Pearson. Guests from Victoria were Mrs. J. Talbot, Mrs. J. Smith, Mrs. B. Harknett, Misses Margaret Treadwell and Ruth Craven.

Party for Naval Officers

In honor of the officers of HMCS Sault Ste. Marie, visiting Ganges Harbor, Mr. and Mrs. Graham Shove and their daughter, Nonie, held a no-host party at their home, "Galilee". The party was also given as a farewell to Mr. and Mrs. Charles Stone prior to their departure for Seattle and to Mr. and Mrs. Donald Corbett who were returning to their home at Capilano Highland. Later in the evening a dance was held at the Mahon Hall in honor of the ship's company.

Shower for Miss Marsh

Mrs. E. Gorton and Miss Vera Raper were co-hostesses at the home of the former, 359 Marigold Road, to honor bride-elect Miss Pat Marsh with a shower. Gifts were arranged in a decorated sailboat and Miss Susie Gorton presented a corsage of roses and carnations to the guest of honor. Mother of the bride-elect, Mrs. F. Marsh, was presented with a corsage of carnations from Miss Jeanie Gorton. Guests were Mrs. G. Hartly, Mrs. G. Hancock, Mrs. M. Nicholls, Mrs. G. Nicholls, Mrs. A. Bloome, Mrs. H. Fields, Mrs. M. Carter, Mrs. A. Alexander, Mrs. L. Kay, Mrs. J. Ness, Mrs. George Gorton, Mrs. Gordon Gorton, Mrs. Eric Porter, Mrs. B. Grainger, Mrs. Chris Turner, Mrs. R. Braidwood, Mrs. A. Allen, Mrs. P. Sutton, Mrs. A. Hughes, Mrs. W. Hughes, Mrs. P. Dickinson, Mrs. F. Hawes, Mrs. M. Delamere, Mrs. J. Palmer and Misses Margaret Gorton and Gale Gorton.

Guest at Lake Louise

Mr. W. C. Angus has returned to his home, 30 King George Terrace, having spent the past week at The Chateau, Lake Louise, as guest of the famous author, Dale Carnegie.

Sixty Years Married

Next Sunday at their home, 1411 Thurlow Street, Mr. and Mrs. E. Poultier will celebrate their 60th wedding anniversary. They were married in Parry Sound, Ont., on August 29, 1894, and lived in Kenora, and in Yorkton, Sask., before coming to Victoria to make their home, nine years ago. They have a son, Melville, in England, and a daughter, Mrs. D. A. Pink (Mabel), 42 Linden Avenue, Victoria. There are also two grandchildren and one great-grandchild.

To celebrate the occasion, Mr. and Mrs. Poultier will be at home to their friends on Sunday from 2.30 to 6 p.m.

Honored by Friends

Mrs. N. Hall was honor guest at a miscellaneous shower given by Mrs. J. Flett and Mrs. E. Speed at the latter's home on Blackwood Street. The honor guest was presented with a corsage of yellow roses and gifts were presented in a mauve and pink decorated container. Guests were Mrs. Lucy Knight, Mrs. Ellen Mayhew, Mrs. Beatrice Crossman, Mrs. Isabel Dallaway, Mrs. Lyle Balfour, Mrs. Agnes Galt, Mrs. Ruth Richards, Mrs. Emily Sherman, Mrs. Nellie Bonk, Mrs. Grace Edwards, Mrs. Una Mardever, Mrs. Elsie Milne, Mrs. Bessie Bosence, Mrs. Alice Creed, Mrs. Hilda Richards, Mrs. Helen Sharp, Mrs. Kathleen Spiers, and Miss Kathleen Rice.

Feted at Shower

Miss Margaret Bevis was honored recently at a surprise shower given by Miss Lois Richardson at the home of her sister, Mrs. L. J. McInnis, 3055 Carroll Street. A corsage of yellow tea roses was presented to the bride-elect and her many gifts were concealed in a decorated wishing well. Guests included Mrs. Nora Mitchell, Mrs. Joyce Menzies, Mrs. Corrie Hutchison, Mrs. Jean McInnes, Mrs. Beverley Wellburn, Mrs. Betty Beek, Mrs. Gladys Ruff, Mrs. Bert McCallum, Mrs. Elaine Peters, Mrs. Scotty Eaton, Mrs. Joan Ord, Mrs. Clara Rickman, Mrs. Margaret Tront, Mrs. Dorothy Caton, and Misses Pat Westwood, Mavis McCahill, Mildred Holmes, Dorothy Smith, Ethel Shepherd, Jean Currie, Elizabeth Patterson, Audrey Miller, Dorothy Jaynes, Marilyn Berry, Dolly Strugnell and Kay Nairne.

Mr. F. E. M. Tomalin and Mr. A. George Cummings, both of Victoria, have been recent guests at Forbidden Plateau Lodge on Mt. Beecher. Other guests have included Mr. and Mrs. C. A. Roth of New York; Miss Veronica Stevens, Mr. R. P. Copping and Mr. H. G. A. Copping, all of North Vancouver.

Out-of-town guests at the wedding of Miss Mildred Ivey Gerard to Mr. John Francis Plant, Saturday, were Miss Dorothy Plant, Grand Forks, B.C., and Mrs. Vivian Sedgewick, New Westminster.

Mr. W. Park Chalmers and his granddaughter, Miss Penny-Lynn Chalmers, Meadow, returned home to Vancouver today after spending a vacation in Seattle and Victoria. While here they were guests at the Sussex Hotel.

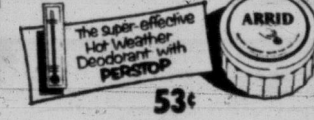

NOW! YOU CAN HAVE DRY, SWEET UNDERARMS EVEN ON HOT, STICKY DAYS!

Arranging a Birthday Reunion

Members of the Ex-Wrens' Association, Malahat Division, who are assisting with arrangements for the 12th birthday reunion include, left to right, Mrs. Thomas Plume, publicity; Mrs. A. E. Simons, association president; Mrs. Terry Wayne and Mrs. Patricia Vant Haaf, the treasurer. The occasion will be marked with a buffet supper in the Blue Room, 1303 Broad Street (up-

stairs), on Friday evening at 7.30. Others on the committee are Miss Helen Talbot and Mrs. W. Browning, vice-president and secretary, Miss Helen Cowhig, Miss Ivy Fletcher and Miss Peggy McDonald. Any ex-WRNS or WRNS wishing to attend are asked to advise Mrs. Simons at 550 Rainbow Drive, Belmont PO, or phone 8-2295.

Gail Keyworth, Barry Hicklenton Wed in St. Stephen's Vancouver

Of interest in Victoria is the wedding of Gail M. Keyworth, RN, daughter of Mr. and Mrs. C. L. Keyworth, 2405 Quadra Street, to Mr. Barry K. Hicklenton, son of Mrs. M. Hicklenton, 2651 Haywood Avenue, West Vancouver, and the late Mr. Hicklenton, in St. Stephen's Anglican Church, West Vancouver.

Rev. E. W. P. Carter performed the ceremony Saturday evening in an all-white floral setting of gladioli, Ester Reed daisies and heather. The bride's father gave her in marriage.

Nylon tulle over nylon net and bridal satin created a sweeping skirt for the bride's traditionally white gown. It was slightly in train. The bateau neckline of the Chantilly lace bodice was trimmed with net and sprinkled with tiny pearls. A scroll eche of lace trimmed with seed pearls held her two-tier chapel-length veil of illusion net and she carried a cascade bouquet of white roses, deep red roses and white heather.

Attendants, Miss D. Munro, RN, maid of honor, and Miss N. Penny, RN, and Miss E. Carr, RN, bridesmaids, wore strapless gowns of net over taffeta-with-lace boleros. Miss Munro in soft pink, Miss Penny

in gold and Miss Carr in turquoise. All wore matching scaled lace hats, and carried bouquets of peach gladioli with pastel daisies.

Malcolm Hicklenton, brother of the groom, was best man and ushers were Alan Key-

Toastmistress Club Enjoys Barbecue

In a perfect setting of calm sea and late afternoon sunshine, Victoria Toastmistress Club held its annual picnic Monday evening in the form of a salmon barbecue on the grounds of the Juan de Fuca auto court at Sooke. Andre Robillard of "All Sooke Day" fame, officiated, assisted by Miss Maudie Cottingham and Miss Helen Egan. Miss Barbara Heim, vice-president of the club, was convener.

Twenty-seven members and friends attended and the president, Mrs. C. C. Warren, was welcomed after her recent illness.

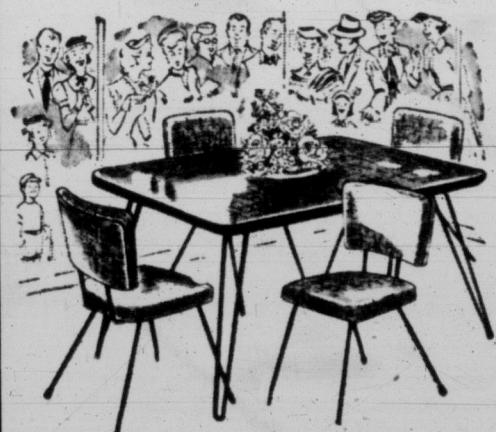

A program was presented, with assignments being drawn as a surprise packet. Mrs. J. Carter was toastmistress of the evening and Mrs. J. Patterson, Arbutus Club, the topic mistress.

Mr. and Mrs. John Francis Plant To Teach School at Terrace, B.C.

Mr. and Mrs. John Francis Plant, who were married Saturday in St. Luke's Church have left for Terrace, B.C., where both have accepted positions as teachers in Terrace schools. Mrs. Plant is the former Miss Mildred Ivey Gerard, daughter of Mr. and Mrs. E. V. Gerard, 1651 Pearl Street. The groom is the son of Mr. and Mrs. J. Plant of Ladysmith, B.C.

Baskets of pink and white gladioli decorated the church for the ceremony which was performed by Canon F. Pike. Nosegays of pink and mauve sweet peas marked the guest pews and the bride's father gave her in marriage.

The bride's traditionally white gown was three layers nylon tulle over bridal satin, fashioned with peplum of Chantilly lace. The bodice was covered by a jacket of matching Chantilly lace which also edged her three-quarter length veil of net. A coronet of seed pearls held the veil and the bride carried a bouquet of red rosebuds and lily of the valley.

Attendants, Miss Peggy Gon-

nason and Miss May Villars were gowned in mauve and blue respectively. Both gowns were styled with full skirts, strapless bodices and matching jackets. Miss Gonnason's of net over satin and Miss Villars' of net over taffeta.

As flower girl little Miss Lyn Roberts wore a frock of mauve taffeta. All attendants carried colonial bouquets of pink and white carnations and had matching garlands in their hair. Kenneth Copeland was best groom chose a dress of navy and white with matching accessories and corsage of yellow roses.

For traveling to Terrace, the bride donned a navy suit, red Rose Room, toast to the bride shortie coat, red accessories and was proposed by Ken Copeland.

A three-tier wedding cake centred the bride's table which was also decorated with tall ivory candles in silver holders and vases of white gladioli. John Gittens played piano selections and Mrs. E. Gerard sang solos.

A dress of blue lace with matching hat and white stole and accessories was worn by mother of the bride, for receiving guests. Her corsage was of red roses. Mother of the groom wore a dress of navy and white with matching accessories and corsage of yellow roses.

At a reception in McEwen's bride and groom were served by Ken Copeland.

Homemaker's Role Is Now Much Easier

TORONTO (CP)—There may have been a time when the Canadian housewife, slaving over the much-maligned hot stove, could have said her lot was not a happy one. But if statistics mean anything, the homemaker's role is becoming much easier.

Dr. Omer Lemieux, chief of the census division, Dominion bureau of statistics, told delegates to the opening luncheon of the Canadian Home Economics Association biennial convention Tuesday that the Canadian housewife has less to look after than 20 years ago and many more conveniences to help her do it.

In 1953, he said, 67 per cent of Canadian homes had electric or gas refrigerators and in 25 years the amount of commercially-canned food has increased 300 per cent.

Against that, more women were working; 11 per cent of married women in 1951 against 3 per cent in 1931. But despite the fact that women are better educated—the number between the ages of 20-24 attending schools increased by 249 per cent—they are not highly paid. Only 12,000 women earned \$3,000 or more in 1951.

Mr. and Mrs. Hicklenton will live at Queen Anne Apartments, 1235 Nelson Street, Vancouver.

LOST HIS NERVE, COST HIS LIFE

HEALDSBURG, Calif. (AP)—On a dare from friends to jump 50 feet into the Russian River here, airman Eugene R. Farrell, 19, of Endicott, N.Y., Tuesday climbed a 20-foot bridge girder and posed aloft. He appeared to have lost his nerve. Someone shouted: "You're yellow!" and Farrell prepared to dive. Instead, he lost his footing, fell to the bridge pavement, and died without regaining consciousness.

RECORD HALIBUT

Coast Catch May Exceed 1915 High

SEATTLE (AP)—The International Pacific Halibut Commission reported Tuesday all records for halibut catches on the Pacific Coast are being broken this year.

Landings this year already have reached 68,000,000 pounds, or about 8,000,000 more than landed in all of 1953.

The commission said it expected the catch by Nov. 15, closing halibut date, should exceed 69,500,000 pounds. This would exceed the 1915 record of 68,750,000 pounds.

The commission credited its part in controlling the amount of fishing with improving the stocks and making fishing more profitable.

"The new halibut treaty ratified last year permitted the commission to establish more than one season in any area so that advantage could be taken of stocks which afforded the best fishing at different times of the year."

The commission said that at the present dockside prices to fishermen, the gain for this year will be worth about \$3,250,000, or "three times the entire amount of money appropriated to the commission by both countries, Canada and the U.S., from the time of its creation in 1923."

Bullets Fly As Boxcar Takes Fire

SPRINGFIELD, Mo. (AP)—An ammunition-laden freight car caught fire in the Frisco freight yards Tuesday night, touching off a series of spectacular explosions and spraying 105-millimetre shells over a wide area.

Exploding shells hit one house, destroying it. Another was badly damaged. But only one person was reported injured.

An estimated 4,000 to 5,000 shells were in the car.

Two yardmen, Gerald Summers and Sam Gaston, uncoupled the burning car from three other cars also loaded with ammunition.

A freight engine pulled the three cars and the remainder of the train out of danger.

L. C. Carner, superintendent of the Frisco terminal here, said the shells had already started to explode when the yardmen uncoupled the car.

Persons in the area were evacuated.

Officials said the fire apparently was caused by a "hot box," a lubricating mechanism on a freight car, which had become overheated by friction.

Color TV Sets To Cost \$1,000

TORONTO (CP)—Color television will be on sale in Canada within a year at \$1,000 a set, Seymour Mintz, president of CBS-Columbia, said Tuesday.

He said Addison's Ltd., Toronto, has received exclusive rights to manufacture and distribute CBS-Columbia radio and television sets in Canada.

However, the company president said color television will never replace black-and-white because it will never be competitive price-wise.

He said the price of color television will probably drop in the same ratio and with the same speed as black-and-white sets. Color sets may go for about \$400 within four years.

HOME GARDEN

By HILDA BEASTALL

Prepare That Cold Frame And Reduce Frost Damage

As the first colchicum pushes its purple crocus-like buds through the soil this week, we must prepare for the busy fall season in the garden.

While we may hope the first frosts are many weeks away, preparation for them is insurance against loss. One of the assets which has unlimited uses at all times, and is practically indispensable in the fall, is the cold frame. If it has been empty all summer, it may need to be cleared of weeds. Dig out the roots, break up the soil, and put in either a layer of compost or of sawdust, according to the use you intend for it.

Attend to the covers, or "lights" as the covers are termed. See that the glasses are intact and clean. Bank up some earth around the frame outside to keep out a few more degrees of cold.

One of the uses for the cold frame in fall and winter is for storage of roots of perennials which are not quite hardy. Some varieties of chrysanthemums, for instance, must be dug after flowering and stored until time comes for taking the cuttings for next year.

Fuchsias, other than the small-flowered hardy kinds, may be safely stored in a cold frame by heaping the almost dry compost around them either in pots or out and lower parts of the branches. The tops will die but frost will be kept from damaging the parts which will produce new shoots for next year's plants.

Sadler's Wells Hit By Dancers' Strike

LONDON (Reuters)—Junior members of the Sadler's Wells' ballet company said Tuesday night British public opinion had been "shocked" to learn this week how low the dancers' salaries are.

The Sadler's Wells' "second string"—who are from the Sadler's Wells' theatre ballet—Monday rejected a management wage proposal, leaving the theatre without a resident company for the opening of the fall season at Covent Garden opera house here.

The walkout was by dancers who comprise an intermediary organization between the Sadler's Wells' ballet school and the "first string," which is exchanging visits with the Paris opera ballet during September. A theatre spokesman said Monday that if the "second string" turned down the wage offer, it would mean cancellation of the first few weeks of ballet in the opera season opening September 6—since they have been engaged to hold the stage until the "big" company, starring Margot Fonteyn, comes back.

The new weekly pay offered the corps de ballet was £7 3s 10½d for the first year, £7 15s 9d for the second year and about £9 5s 9d for the third year.

The sum of £7 3s 10½d is equivalent to about \$20.15 Canadian. The rate is not, however, an index of the pound's purchasing power in terms of commodities.

In the first and second years, they would get a 10s 9d raise in the second half of the year. The dancers have demanded a flat £1 10s 9d weekly increase.

The dancers insist that their pay compares unfavorably with that for West End chorus girls.

Students Will Do Homework at School

TROIS-RIVIERES, Que. (CP)—Students of St. Joseph Seminary here will have to do their "homework" at school, starting September.

College officials said Tuesday the plan—whereby students would remain at school for a couple of hours after the end of regular lessons—is being enforced because "the distractions of modern life, particularly television," make it impossible for them to study at home.

THE OILY BARD Catches the Fish

Today I gotta plug oil ranges but I'm thinkin' more about the plug that failed yesterday off Sidney Spit while Art Roberts and I were trying to catch a fish for 8-year-old Ricky—his first. First tho' I have to tell you about the fabulous Ollite range the Enterprise people have whopped up for us that sells for \$299.00 less 60 bucks for your old wood and coal range complete with clinkers. That means you only shell out two hundred and thirty-nine fish for a lifetime of even oil heat.

Anyhoo Rick got this fish on a Lucky Louie plug—and, bug eyed he started hauling it in. He got it nearly up to the boat too, when, being so anxious he forgot to play it and bingo—off it went plug and all. If you ever saw a boy lose his first fish you know how we felt—so I said, "Here Rick take my line," and just as he did, bang, he got another strike. Just as anxious he started bringing this one in and this time he was successful—and now comes the punch of this true fish story. In the mouth of that fish was the first Lucky Louie plug and the fish hadn't bitten, on my line but had caught the hook that was in his mouth around the line and tangled himself, up in it so tight he couldn't get off. They tell me you can get off the hook of hard work and wet wood by buying an Ollite Enterprise range with patented pilot down in its pot which saves one gallon in 5 and THAT'S no fish story. Your old clunk is the down payment at

World Debut of 3-D Television in Britain

LONDON (Reuters)—Three-D television made its world debut here Tuesday.

Reporters were polarized glasses for the three-dimensional showing. They saw TV announcer Avis Scott enter a studio. The smoke from her cigarette seemed to curl right out from the screen.

It will be some time before TV-in-depth is developed for home viewers. The government expects to be able to make use of it for atomic research.

The invention was unveiled Tuesday at a preview of the annual British radio exhibition in London by the Fye Company of Cambridge.

"It is known that experiments on similar lines have been going on in the United States," a Fye official said. "But I believe they have been secretive about them because of the value to atomic energy research."

OPEN NEW FIELDS
 A spokesman for Britain's department of atomic research said "We already use TV for research which cannot be watched by the naked eye. Three-D with pictures in depth opens-up new fields."

At Tuesday's showing, the 3-D television was screened on experimental sets a few feet

away from a miniature 3-D studio.

Two cameras were used, one representing the right eye, and the other the left. Two images—one vertical, the other horizontal—were fed to the TV sets, where the images were "married" with a mirror.

CHECK BACK-TO-SCHOOL NEEDS NOW!

Get Them Off to a Good Start by Sending Them Back to School Properly Equipped!

After those long, carefree summer holidays, your youngsters will be needing everything... from textbooks to raincoats and rubber boots! Make sure they are proud of their appearance, ready to take their places among the best dressed students in school. For all of the back-to-school needs of your family, watch the advertisements appearing in this newspaper.

Why Trudge From Store to Store With Junior... Looking for His Back-to-School Requirements?

The quickest, easiest and most satisfactory method of organizing your family's return to class is a list prepared from the ads that appear in your daily newspaper. Place the names of the advertiser beside the item, then call in at the shops you've listed and get everything done in one shopping expedition!

Your Local Daily Newspaper is Your Best Back-to-School Shopping Guide. WATCH THE ADS IN

ASTROLOGICAL FORECAST

THURSDAY, AUGUST 26, 1954

ARIES (March 21 to April 19)

Seeking better ways to bring your particular qualifications to the attention of others requires you add a little taffy if you want really sensational results. P.M. enjoy close companions.

TAURUS (April 20 to May 20)

Improving all relations with family, business ties assures real co-operation in future, but you must show you want harmony to exist, as your forceful motives have been misinterpreted.

GEMINI (May 21 to June 21)

Dash around as much as you can today, letting others see, be more aware of your ability to handle emergencies, unusual events with cleverness, dispatch. Then they give you opportunity for which you are "all set."

CANCER (June 22 to July 21)

Taking greater awareness of your ability to make both ends meet with more "to spare" brings you greater sense of abundance now. Why settle for something small when you can have big results in possessions?

LEO (July 22 to Aug. 21)

This is your day to be very personal, looking at yourself, your surroundings, your contacts; decide added assets you want in all ways. P.M. go after getting them.

VIRGO (Aug. 22 to Sept. 22)

Getting off alone for a little while, studying present flaws, errors in your environment, brings good idea, snappy inspiration for replacing the unwanted with some fine improvements. Get new plan.

LIBRA (Sept. 23 to Oct. 22)

Warm, generous, magnanimous.

SCORPIO (Oct. 23 to Nov. 21)

Now is your day really to go to town getting more respect, good will, backing from terrific tycoons who have it in their power to make you a big success in short time.

SAGITTARIUS (Nov. 22 to Dec. 21)

Studying your newspaper, trade and other magazines, information available in libraries, etc., gives you at last substantial knowledge so you can go with confidence to others who can make your dreams come true.

CAPRICORN (Dec. 22 to Jan. 20)

Listening carefully to voice of your own intuition, also those to whom you are deeply committed, opens ways to impress those in influential positions to your gain. Have finances exact.

AQUARIUS (Jan. 21 to Feb. 19)

Now you can assure partners of your intention, coupled with deeds, to make joint ventures a great success; also take sting out of opponents' barbs by being courteous, generous with them.

PISCES (Feb. 20 to March 20)

Really doing your job thoroughly with view to making your environment more attractive, efficient, gives others proof of your artistic meticulous capabilities to your future success, happiness.

IF YOUR CHILD IS BORN THURSDAY...

Thursday's child is one of those very charming youngsters who will have practically everyone anxious and eager to make life easier for him, or her. But it is not advisable to have your offspring spoiled, or the life may fall in channels which are merely a "soft place to flop." Early in life show that only what you really earn is worth having and is truly enjoyed. Fine chart for vocations connected with public work or any occupation that has considerable praise as an incentive to accomplishment.

NO-RAIDING AGREEMENT DRAFTED BY TLC-CCL

REGINA (CP)—The Trades and Labor Congress of Canada today received a recommendation from its executive for a no-raiding pact with the rival Canadian Congress of Labor.

The tentative pact, as drafted by TLC-CCL officers, calls for the two congresses themselves to refrain from raiding each other's memberships and requests affiliated unions to sign individual treaties with other unions operating in the same fields.

The move, first of its kind in Canadian labor history, would parallel similar action taken this year by the big American Federation of Labor and Congress of Industrial Organizations in the United States.

The TLC has 580,000 members, the CCL 375,000.

Russian Ships Near Formosa

Chinese News Agency Reports Movements

TAIPEH, Formosa (UP)—A Chinese Nationalist news agency reported today Russia's Far Eastern fleet has shifted warships southward to offset a United States naval build-up along the China coast.

Chinatone News Agency, which claims close connections with military intelligence, said one Soviet cruiser of about 10,000 tons and two destroyers were seen in Chusan harbor off the Chekiang coast recently by Nationalist agents. Several Soviet warships were also reported at Hainan Island in the Gulf of Tonkin off the coast of northern Viet Nam.

Previous reports have told of impressive numbers of Soviet submarines and cruisers in the Hainan Island area at the mouth of the gulf, scene of recent air clashes between Chinese Communist and American planes.

Nationalist sources have reported that Russians have shifted recently two aircraft carriers to their Far Eastern fleet. One was said to be in the 35,000-ton class and the other a lighter escort carrier.

U.S. Planes To Back Fleet

TOKYO (UP)—American air forces based in the western Pacific will join the Seventh Fleet in blocking Red China's threatened invasion of Formosa, an authoritative American military source disclosed today.

"If the Communists really intend to conduct operations against Formosa, they are in for a terrible beating," the high official warned.

He said President Eisenhower had responded to the Peiping regime's "trial balloon" on Formosa by declaring a Red invasion would have to deal with the Seventh Fleet.

The source said that while the

Nehru Offers West Own 'Peace Formula'

NEW DELHI, India (AP)—Prime Minister Nehru offered his own "collective peace" formula today for easing world tension. As an example, he cited his recent non-aggression agreement with Chinese Communist Premier Chou En-lai.

In a 25-minute foreign policy review to the Indian Parliament, Nehru condemned such military pacts as the U.S.-proposed Southeast Asia Defense Alliance. He said SEATO "likely will reverse the trend of conciliation released by the Indo-China settlement."

Nehru confirmed India's refusal to participate in the SEATO talks in the Philippines next month and said his government was "apprehensive" that the proposed Southeast Asia collective organization will in the present do more harm than any good it might hope to do in the future.

Nehru and Chou, after their

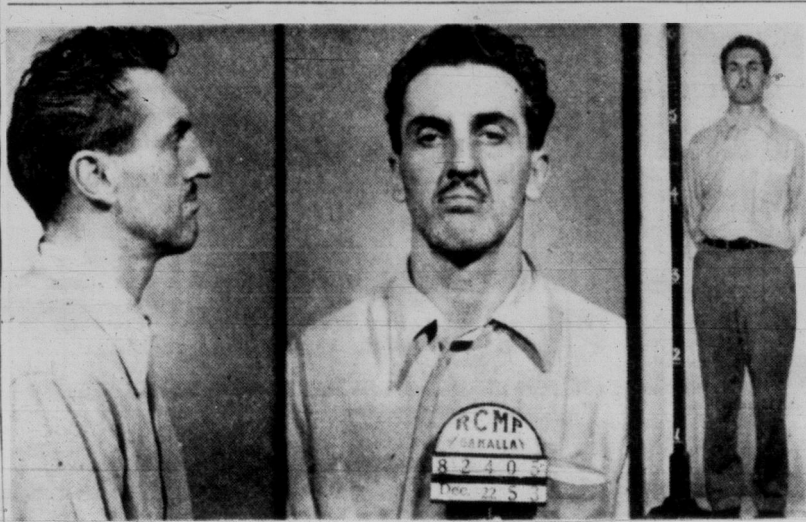

SEATO Talks Start

SYDNEY, Australia (AP)—Prime Minister Robert G. Menzies said tonight preliminary official talks on the proposed southeast Asia treaty will begin in Manila next Wednesday.

Warden Admits Slip-Up In Dawley Jail Break

AUSTIN PRODUCES ECONOMICAL GAS-TURBINE FOR MOTORING

BIRMINGHAM (Reuters)—A British automobile company announced today that it had overcome one of the main obstacles to gas-turbine motoring by successfully fitting a car with a heat exchanger turbine.

One of the main objections to the commercial use of gas-turbines has been the high fuel consumption and heat wastage. The fitting of a heat exchanger in the exhaust system utilizes the "waste" gases and lowers fuel consumption.

The Austin Motor Company, part of the giant British Motor Corporation, announced that results so far with its 125-horsepower engine were "encouraging." But it gave no further details.

Vargas Mourners, Police Clash

One Reported Killed, 38 Injured In Rio De Janeiro Demonstrations

By W. W. COPELAND

RIO DE JANEIRO (UP)—Military police and crowds of mourners for the late President Getulio Vargas clashed at Santos Dumont airport and in downtown Rio de Janeiro today, killing one person and injuring 38 others.

The first clash occurred at the airport as the body of the president who shot himself Tuesday was flown to the provincial town of Sao Paulo for burial.

The police fired over the heads of the crowd, driving it back from the runway as a private two-engine plane took off.

There were no casualties at the airport, but several persons fainted.

The crowd, estimated at tens of thousands lining the mile-and-a-half route from the presidential palace to the airport, then marched downtown.

Near the centre of the city the police and demonstrators clashed again, and one man was killed.

Two men were hospitalized with bullet wounds.

The crowd surged into the centre of the city until it reached the Cinelandia Esplanade, the square in which many motion picture houses are situated.

Army troops stationed on the steps of the municipal chamber fired a volley of shots over the heads of the demonstrators as a warning to disperse.

But the crowd held firm and attempted to overturn a military police vehicle.

Special police rushed into the square and fought the demonstrators hand to hand until the crowd was driven from the area.

Police officials said 36 persons were injured in the Cinelandia Esplanada clash.

The demonstrations which began Tuesday after Vargas committed suicide have resulted in four deaths and wounds or injuries to 53 persons.

HEAVY GUARD

The Cinelandia Esplanada is only one block from the American embassy, which was attacked Tuesday. A heavy guard was around the embassy building today.

The crowds along the route to the airport and at the airfield were quiet until just before the plane bearing Vargas' body took off. Then they surged through police lines for a last look at the casket as it was loaded on the DC-3.

The parade, described as the

Mendes-France Refuses EDC Support

Government's Life Not at Stake

PARIS (AP)—The European army treaty's chances looked slimmer than ever today following Premier Pierre Mendes-France's decision to submit the pact to the National Assembly Saturday without government support.

He told reporters Tuesday night he would not stake the life of his government by calling for a vote of confidence on the treaty's ratification. The crucial decision not to recommend it as government policy was made at a cabinet meeting which lasted into the late hours.

Today Mendes-France spoke to a joint session of the foreign affairs, national defense and overseas territories committees of the National Assembly. All three have reported unfavorably on EDC.

He said his government would take on responsibility for a vote on EDC as it now stands.

WIRE BRIEFS

Freighter Fired On

HONG KONG (Reuters)—A British freighter was fired on Tuesday night by a Nationalist Chinese shore battery on one of the islands in the Formosan strait, its agents said here today.

Snow at Cranbrook

CRANBROOK (BUP)—Snow fell in parts of the Canadian Rockies Tuesday night, leaving a fine white blanket of snow almost down to the foothills.

'Hundreds' Arrested

BERLIN (UP)—The chief of East Germany's secret police reports his men have arrested "hundreds" of western agents since West German intelligence chief Otto John fled to the east, the East German radio said today.

Suicide Try Foiled

VANCOUVER (BUP)—A woman who was picked up by police recently after threatening to throw herself off the Granville Street Bridge was foiled in a second suicide attempt Tuesday night.

Police said the woman, who was not identified, was taken to the General Hospital suffering from an overdose of sleeping pills.

Montreal Fire

MONTREAL (BUP)—A fire which broke out in a big downtown grocery store was quickly brought under control today after morning shoppers fled out quietly into the street without a single casualty.

The blaze caused heavy damage to the Steinberg's Ltd. store on St. Catherine St. West.

Calgary Drenched

EDMONTON (CP)—Rain-sodden Alberta was promised some relief by weather forecasters today after 2.99 inches drenched the Calgary district alone in the last 24 hours.

Probe \$125,000 Fire

DOMINION, N.S. (BUP)—The Nova Scotia fire marshal's office today probed a \$125,000 fire which destroyed the St. Eugene Roman Catholic Church in this Cape Breton centre Tuesday.

Four dynamite caps were found near the ruined three-year-old church, levelled along with four adjoining school rooms.

Will Act Fast If EDC Fails

WASHINGTON (UP)—The United States and Britain will move quickly to grant sovereignty to Western Germany if France rejects the European Army plan,

Germany waited more than two years for satisfaction of the EDC Treaty and restoration of her sovereignty. So far, France and Italy have failed to go along with the EDC plan.

The French parliament is scheduled to start debate Saturday on the treaty, and a vote is expected early next week. Although the United States is pessimistic about chances of French approval, officials said the state department still gives the treaty a "fighting chance."

But that chance appeared to be growing increasingly dimmer. The French cabinet agreed Tuesday night to ask the National Assembly to vote on the EDC pact without making it a question of confidence in Premier Pierre Mendes-France.

Dulles Appeals for Ratification

Under such a procedure, the political life of Mendes-France would not be staked on approval of the treaty. This was regarded as a plan that would ensure defeat of EDC.

Secretary of State John Foster Dulles said Tuesday he "deeply regrets" that France has not gone along with the other EDC signatories in standing by basic treaty principles.

He appealed for French ratification in these words: "I still have the hope that when France confronts the ultimate decision, she will follow her great tradition of idealism, based on a sense of realism, and choose to cement the EDC partnership which is of French conception, rather than stand apart."

Officials also turned a cold shoulder on a plan of Antoine Pinay, former French premier, to save EDC. The proposal called for France to give EDC an 18-month trial run.

Officials said the United States wants a final decision on the long-stalled treaty now and is not in a mood for another round of conferences after an 18-month test period.

Canadian Scores Upset In U.S. National Golf

Montreal's Don Doe Defeats Patton In National; Ward Beaten on 18th

GROSSE POINTE, Mich. (UP)—Frank Stranahan and Donald Doe, one as well known as the other is obscure, knocked co-favorites Harvie Ward Jr. and Billy Joe Patton out of the running today in the third round of the U.S. amateur golf tournament. The fourth round was being played this afternoon.

Stranahan, the Toledo, O., hot-shot who has won practically every amateur golf tournament except this one at least once, gained a 1-up edge over Ward when the latter saw his 18-foot putt for a halve stop on the lip of the cup on the 18th hole at the Country Club of Detroit.

Doe, the Granby, Quebec, golfer whose biggest claim to fame was as runner-up in the 1953 Canadian amateur, won two of the last three holes to oust Patton who was seven over par for the round.

To Trade With Reds

OTTAWA (CP)—The government has added Indo-China to the list of Soviet bloc countries to which exports of Canadian goods can be made without a federal permit.

Required To Lose War General Tells Senate

ORLANDO, Fla. (AP)—A retired air force general told a Senate sub-committee here today "we were required to lose" the Korean war.

He was Lieut.-Gen. George E. Stratemeyer, now living in nearby Winter Park after a heart attack in 1951.

The Senate internal security sub-committee came here because of his physical condition and heard him in closed sessions Tuesday. Today's session was open.

Stratemeyer told the committee that "state department and political interference kept us from winning the war."

Gen. Mark Clark recently told the committee he, too, felt that military decisions had been overridden by other considerations.

Stratemeyer said that as head of the Far East Air Force under Gen. Douglas MacArthur "I wasn't permitted to do a job and certainly MacArthur was handicapped. Never before in Amer-

TROOP SHORTAGE

"We never had enough ground troops but we could have won with what we had on the ground and in the air if we had been allowed to use it wisely from a military standpoint."

Stratemeyer said his planes were forced to bomb bridges across the Yalu River cross-ways instead of lengthwise "so we would not violate the Manchurian and Siberian borders."

The general said that when MacArthur was relieved from command "morale of the entire command took a terrific drop. It was a darn crime. One of the greatest commanders of all time pulled out during a war he was conducting brilliantly despite unheard of handicaps, and not even allowed to say goodbye to his officers and men."

Them quick leave-takin's are goin' t' hev Oakalla keepers cuttin' out paper Dawleys.

Looks like th' end o' th' line fer EDC. From here on European defense'll hev t' walk.

Company seems more willin' t' bury th' hatchet than th' power line.

PRICE: 1 CENT SATURDAY, 10 CENTS

FINAL BULLETINS

Search on for Mother, Daughters

PRINCETON, B.C. (CP)—Two aircraft and ground parties today started a search for a Chilliwack mother, her two daughters and a guide missing in rugged mountain country 25 miles southwest of here.

RCMP planes at Vancouver and army groups at Chilliwack are standing by for a call to join the hunt. Missing are Mrs. Vera McFetridge, about 40; Marilyn, 13; Carol, 11, and guide Ray Cook, about 50—all of Chilliwack.

Anacortes Family Said Missing

ANACORTES, Wash. (AP)—The coast guard reported today it is searching for an Anacortes family of six after relatives reported them overdue on a boat trip in the San Juan Islands.

Relatives said James M. Sherman, 39, a pulpwood worker, apparently left Thursday in a 15-foot outboard-powered boat with his wife, Roberta, 25, and their children Edward, David, Linda and Carol, ages 5 to 12. They were expected back Sunday or Monday.

Port Angeles Woman Dies in Fall

PORT ANGELES, Wash. (AP)—A screaming Port Angeles woman plunged to her death early today from a bluff above the Strait of Juan de Fuca, a few feet outside the house where her estranged husband is living.

The victim was Marney M. Smith, 31, the mother of two children. Coroner Howard B. Doherty said a preliminary investigation failed to show whether it was an accident or an intentional fall.

Montreal Fire Damage \$100,000

MONTREAL (CP)—Fire today caused an estimated \$100,000 damage at a Steinberg's Limited store in downtown Montreal.

About 85 customers and employees in the store when the blaze started fled out without panic seconds after the alarm was sounded.

Demands Indian Affairs Probe

SASKATOON (CP)—John Diefenbaker today called for a royal commission to investigate administration of Indian affairs.

The Progressive Conservative member of parliament for Prince Albert said in an interview that the commission should see that Indians are emancipated from excessive control.

Merritt Man Dies in Car Accident

KAMLOOPS, B.C. (CP)—Percy Curry of Merritt was killed today when his car plunged off the highway into Stump Lake, 30 miles south of here.

Curry's body was recovered by RCMP after a truck driver reported that a truck was resting in three feet of water near the lakeshore. Dragging operations were started and the victim's body was found nearby.

Canadian Scores Upset In U.S. National Golf

GROSSE POINTE, Mich. (UP)—Frank Stranahan and Donald Doe, one as well known as the other, are obscure, knocked co-favorites Harvie Ward Jr. and Billy Joe Patton out of the running today in the third round of the U.S. amateur golf tournament. The fourth round was being played this afternoon.

Stranahan, the Toledo, O., hot-shot who has won practically every amateur golf tournament except this one at least once, gained a 1-up edge over Ward when the latter saw his 18-foot putt for a halve stop on the lip of the cup on the 18th hole at the Country Club of Detroit.

Doe, the Granby, Quebec, golfer whose biggest claim to fame was as runner-up in the 1953 Canadian amateur, won two of the last three holes to oust Patton who was seven over par for the round.

The usually precise Patton soared to a 40 on the front nine and was one down at the turn. And he went two down at the 11th when Doe carded a birdie three.

Patton rallied to win the 14th with a bogey five and the 15th with a par four only to see Doe can a 25-foot putt to go ahead again on the next hole.

On the 17th, Patton plunked his second shot 40 feet from the pin while Doe fell 30 yards short of the green.

BRILLIANT PLAY
Doe calmly whacked a wedge into the cup on the second bounce for a birdie three. But Patton kept his chances alive by rolling in the 40-footer for a halve.

Both were short of the 18th green with their second shots. Doe ran his approach 10 feet from the pin and Patton was 15 feet from the cup with his third. Patton missed his putt while Doe dropped his for the 2-up victory.

Another Canadian, Don Silverberg of Red Deer, Alberta, defeated Alex Welsh of Rockford, Ill., 3 and 2.

Both were short of the 18th green with their second shots. Doe ran his approach 10 feet from the pin and Patton was 15 feet from the cup with his third. Patton missed his putt while Doe dropped his for the 2-up victory.

Another Canadian, Don Silverberg of Red Deer, Alberta, defeated Alex Welsh of Rockford, Ill., 3 and 2.

Sovereignty Seen for West Germany

U.S., Britain Ready to Move

WASHINGTON (UP)—The United States and Britain will move quickly to grant sovereignty to West Germany if France rejects the European Army plan, informed sources said today.

The West German government, in return, is expected to agree not to start rearming until after further negotiations with the west.

The sources said such a plan would be designed to persuade France to grant at least limited sovereignty to Germany if she refuses to go along with the six-nation European Defense Community Treaty. U.S. officials hope France will see the political necessity for following the American and British lead in granting sovereignty in their zone of Germany.

Failure to give West Germany a free hand in conducting her own affairs could lead to downfall of Chancellor Konrad Adenauer's pro-western government, officials believe. West (Continued on Page 14)

TORONTO (UP)—Former amateur king Gene Kittler and youthful Dick Mayer fired scorching seven-under-par 64s today to take the lead from early finishers in the first round of the 72-hole \$26,500 Labatt Open at the Scarborough Golf and Country Club.

Mayer, of St. Petersburg, Fla., playing his fourth season as a pro, eagled the 51-yard sixth hole and birdied three others as he ripped over the front nine in a five-under-par 31. He had three birdies coming home but bogeyed the 220-yard 14th for a two under 33.

Littler, of Palm Springs, Calif., dropping 20-foot putts almost at will, had three birdies going out for a 33 and then blistered the back nine for four birdies for a 31.

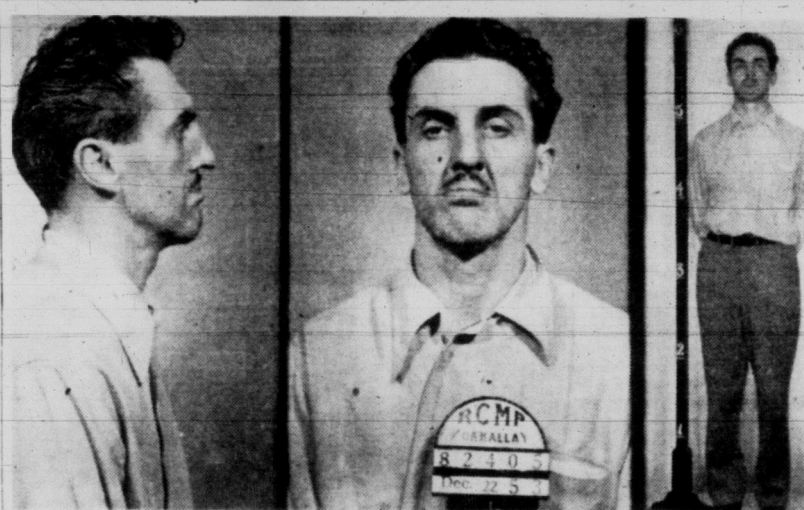

OTTAWA (CP)—The government has added Indo-China to the list of Soviet bloc countries to which exports of Canadian goods can be made without a federal permit.

SUICIDE TRY FOILED
Vancouver (UP)—A woman who was picked up by police recently after threatening to throw herself off the Granville Street Bridge was foiled in a second suicide attempt Tuesday night.

Police said the woman, who was not identified, was taken to the General Hospital suffering from an overdose of sleeping pills.

Probe \$125,000 Fire
DOMINION, N.S. (UP)—The Nova Scotia fire marshal's office today probed a \$125,000 fire which destroyed the St. Eugene Roman Catholic Church in this Cape Breton centre Tuesday.

Four dynamite caps were found near the ruined three-year-old church, levelled along with four adjoining school rooms.

Have You Seen Clifford Dawley?

Warden Admits Slip-Up In Dawley Jail Break

WIRE NEWS BRIEFS

Snow at Cranbrook — CRANBROOK (BUP)—Snow fell in parts of the Canadian Rockies Tuesday night, leaving a fine white blanket of snow almost down to the foothills.

U.K. Harvest Poor — LONDON (AP)—Britain is facing the prospect of one of the worst harvests in years. So much rain has poured on this island during the summer that the umbrella factories are far behind the demand.

Freighter Fired On — HONG KONG (Reuters)—A British freighter was fired on Tuesday night by a Nationalist Chinese shore battery on one of the islands in the Formosa strait, its agents said here today.

Calgary Drenched — EDMONTON (CP)—Rain-sodden Alberta was promised some relief by weather forecasters today after 2.99 inches drenched the Calgary district alone in the last 24 hours.

Dawley, who eluded guards and scaled a fence at Oakalla prison Monday, has been reported in four locations near Vancouver overnight and again at Ladysmith, on Vancouver Island.

None of the reports are considered substantial, although the Ladysmith report said a man seen in a restaurant there resembled him even to his partially paralyzed left hand.

Warden Hugh Christie at Oakalla, who has headed an investigation into the escape, Dawley's seventh try for freedom in a week, today blamed two guards for "a serious slip-up."

Dawley's determination to escape was "common knowledge throughout the prison," a released convict is quoted as saying. He was scheduled to face an habitual criminal charge at Nanaimo, Sept. 7. Conviction would possibly mean he would be jailed for life.

ESCAPE TRY
Dawley's previous escape tries date back to March, when he made a daring leap from a window at Vancouver General Hospital, where he had been taken with simulated back injuries.

Arrested in Montreal, he was brought back to Oakalla to await trial in Nanaimo on charges of assault and possession of burglar tools.

DIGGING TOOLS
During the few days prior to his recent escape, Dawley was foiled in attempts to dig through a cell wall and cut through bars. Guards took hacksaw blades and digging tools away from him.

Seattle police have joined in the hunt and claim Dawley is a suspect in a March 12 bank robbery there in which two policemen were killed.

'Hundreds' Arrested
BERLIN (UP)—The chief of East Germany's secret police reports his men have arrested "hundreds" of western agents since West German intelligence chief Otto John fled to the east, the East German radio said today.

Them quick leave-takin's are goin' t' hev Oakalla keepers cuttin' out paper Dawleys.

Looks like th' end o' th' line fer EDC. From here on European defense'll hev t' walk.

Company seems more willin' t' bury th' hatchet than th' power line.

Action Offsets U.S. Buildup of Sea Power

TAIPEH, Formosa (UP)—A Chinese Nationalist news agency reported today Russia's Far Eastern fleet has shifted warships southward to offset a United States naval buildup along the China coast.

Chinatone News Agency, which claims close connections with military intelligence, said one Soviet cruiser of about 10,000 tons and two destroyers were seen in Chusan harbor off the Chekiang coast recently by Nationalist agents. Several Soviet warships were also reported at Hainan Island in the Gulf of Tonkin off the coast of northern Viet Nam.

Previous reports have told of impressive numbers of Soviet submarines and cruisers in the Hainan Island area at the mouth of the gulf, scene of recent air clashes between Chinese Communist and American planes.

Nationalist sources have reported that Russians have shifted recently two aircraft carriers to their Far Eastern fleet. One was said to be in the 25,000-ton class and the other a lighter escort carrier.

U.S. Planes Would Support Ships
TOKYO (UP)—American air forces based in the western Pacific will join the Seventh Fleet in blocking Red China's threatened invasion of Formosa, an authoritative American military source disclosed today.

"If the Communists really intend to conduct operations against Formosa, they are in for a terrible beating," the high official warned.

He said President Eisenhower had responded to the Peiping regime's "trial balloon" on Formosa by declaring a Red invasion would have to deal with the Seventh Fleet in carrying out its mission.

The high source voiced his warning to the Reds as administration officials in Washington held high-level meetings to decide whether U.S. protection of Formosa should be extended to include several islands held by the Nationalist Chinese off the coast of China.

It also followed by less than a day demands by Red China's Mao Tse-Tung for withdrawal of American warships from the Strait of Formosa.

U.S. consideration of extending the fleet resulted from threats by Red Chinese Premier Chou En-Lai and other Communist officials to "liberate" Formosa from Chiang Kai-Shek's forces.

It also was prompted by reports that masses of Red Chinese troops had moved into position on the mainland near the Nationalist island outposts.

"The Communists would be very unwise to launch operations against Formosa," the American official said. "I think they would fail and I believe they know they would fail."

"They are carrying on a propaganda war and their threats against Formosa are a part of it."

He said the Communists have withdrawn far more Chinese troops from North Korea than they have reported to the neutral nations armistice commission. The bulk of these forces have retired only to Manchuria and North China, however.

The official said he was unable to evaluate Chinese Nationalist reports of the large Red army buildup opposite Formosa.

Required To Lose War
General Tells Senate

ORLANDO, Fla. (AP)—A retired air force general told a Senate sub-committee here today "we were required to lose" the Korean war.

He was Lieut. Gen. George E. Stratemeyer, now living in nearby Winter Park after a heart attack in 1951.

The Senate internal security sub-committee came here because of his physical condition and heard him in closed sessions Tuesday. Today's session was open.

Stratemeyer told the committee that "state department and political interference kept us from winning the war."

Gen. Mark Clark recently told the committee he, too, felt that military decisions had been overridden by other considerations.

Stratemeyer said that as head of the Far East Air Force under Gen. Douglas MacArthur "I wasn't permitted to do a job and certainly MacArthur was handcuffed. Never before in American history was a military commander placed in the position of not being allowed to win."

TROOP SHORTAGE
"We never had enough ground troops but we could have won with what we had on the ground and in the air if we had been allowed to use it wisely from a military standpoint."

Stratemeyer said his planes were forced to bomb bridges across the Yalu River crossings instead of longwise "so we would not violate the Manchurian and Siberian borders."

The general said that when MacArthur was relieved from command "morale of the entire command took a terrific drop. It was a darn crime. One of the greatest commanders of all time pulled out during a war he was conducting brilliantly despite unheard of handicaps and not even allowed to say goodbye to his officers and men."

NO-RAIDING AGREEMENT DRAFTED BY TLC-CCL

REGINA (CP)—The Trades and Labor Congress of Canada today received a recommendation from its executive for a no-raiding pact with the rival Canadian Congress of Labor.

The tentative pact, as drafted by TLC-CCL officers, calls for the two congresses themselves to refrain from raiding each other's membership and requests affiliated unions to sign individual treaties with other unions operating in the same fields.

The move, first of its kind in Canadian labor history, would parallel similar action taken this year by the big American Federation of Labor and Congress of Industrial Organizations in the United States.
